SALES EXECUTIVE - WASHROOM HYGIENE

"Little by Little Day by Day What is meant for you Will Find its Way"

- Ave Mateiu

I was born in Bangalore, India's Silicon Valley and the largest city in the southern Indian state of Karnataka. Later, I grew up at Moodabidri, popularly known as Jainkashi, which is an old temple town located 35 kilometers from Mangalore. As a result, my teenage years were spent admiring the scenery of lush green fields, lovely forests, and palm-fringed beaches. Throughout my schooling, I was actively involved in sports and dance performances. Badminton and volleyball were my favorite sports. Dance was my love, and I still like dancing. I choreographed several dances as a teenager, and I continue to do so now. During the course of my graduation, my favorite spot was the Mechanical labs; whether I was working on the computer with Solid Edge or constructing models on the lathe machines, I enjoyed my time there. I also completed my internship at MRPL (Mangalore Refinery and Petrochemicals Limited). My first employment was in the town's small-scale manufacturing business, and now I'm thankful to be here at Intercare. Coming to Dubai was predestined; I never imagined it. After 5 years of working in different roles for a local company, Intercare is my second employer. I come from a small family. My family consists of seven members, including my father, mother, sister, brother-in-law, niece, and wife. I live here with my wife, who is an IT professional. Since July 2021, she has been my source of support and strength. We've established a few friends here who we hang out with on weekends, spend nights camping, go on long drives, and take excursions.

I believe that life is a never-ending process of learning and development. We must accept obstacles, and in doing so, we learn and grow. What we want will eventually be ours, but only if we work for it.

As previously mentioned, I am primarily from India's coastal region. As a result, I've always enjoyed going to the beach. I found it soothing to sit near the shore and watch the waves. However, after moving to Dubai, I am attracted by the skyscrapers, mountain views and its culture. The sunrise and sunset views from the Jebel Jais Mountains are simply stunning. My time in Dubai fascinated my curiosity in going to other countries and experiencing their cultures and cuisines. I'm a movie geek. I can watch movies all day. My favorite movies include thrillers, crime stories, and adventure films. As a teen lad, I had a strong interest in automobiles; I began collecting die-cast car models, and my computer was packed with racing games. During my bachelor years, I learnt to cook, which became a hobby. In time off from work, I try to prepare something fresh and good. I am a very social individual who enjoys meeting new people and making friends. I constantly attempt to keep my surroundings lively and joyful.
