WELCOME TO

INTERCARE

Towards A Sustainable World

Established in **1969,** Intercare was founded in the Levant with a vision to meet the evolving demands of the **Washroom Hygiene, Floorcare, and Powder Coating** sectors. Kicking off its journey in the early 1970s, the enterprise shaped its core businesses in line with the nation's rapid infrastructure development following the founding of the **UAE.** Since then, Intercare has expanded exponentially over the past 50 years to become one of the GCC market's sought-after manufacturers and suppliers of innovative and sustainable solutions for **Washroom Hygiene, Floorcare, Speciality Chemicals, Waste Care, Building Materials, Interiors, Powder Coating, and Steel & Fencing Sectors.**

FIVE DECADES OF

CARE. GROWTH. IMPACT.

OUR JOURNEY. OUR LEGACY.

1970's

1969

John Colley incorporates Advance Services ME in Beirut, Lebanon as a joint venture with Advance Laundries Ltd., a subsidiary of British Electric Traction (BET), UK

1974

Advance Services ME commences UAE operations in November 1974, as a division of WJ Towell housing the primary business division of Washroom Hygiene and started selling indoor cleaning products in Saudi Arabia

1975

Introduced floor care products in the entire Gulf region

1977-78

John Colley acquires full ownership in Advance Services ME.

1980's

1981

Incorporates Intercare (Overseas) Limited ('IOL") in Cyprus on 23rd April 1981. All investments and branches of Advance Services ME are subsequently transferred to IOL

1984-85

Intercare sets-up in-house electrostatic paint shop for refurbishing towel cabinets. Commercializes paint shop by introducing architectural finish coating solutions for third-party clients marking the set-up of powder and wet coating plant in Sharjah, UAE

1985

Intercare acquires in Dubai, UAE-based Material Marketing Est, a building materials trading business, with a small branch in Abu Dhabi.

1985

Intercare acquires in Sharjah, UAE based Concorde Steel LLC engaged in steel fabrication activities

1987

Branch office of Intercare Overseas Limited was established in Sharjah, UAE

1987

Established Intercare Qatar and Intercare Bahrain

1988

Material Marketing Establishment acquired in 1985 becomes Intercare Co. LLC with its office in Dubai trading in building materials, security fencing and contract hospitality Interiors.

1988

Intercare acquires a chemicals manufacturing plant in Abu Dhabi, UAE with an annual production capacity of 2,000 tons, and moves it to Sharjah.

1989

Concorde Steel LLC acquired in 1985 becomes Intercare Steel Co. LLC in Sharjah, UAE; a new security fencing manufacturing division is set up to specialize in the production and design of security systems.

1990's

1990

Chemical manufacturing plant acquired in the year 1988 became Intercare Chemicals LLC in Sharjah, UAE, specializing in the production of professional cleaning chemicals.

1992

Intercare Co. L.L.C obtains its first large hospitality fit-out contract with Crowne Plaza, Dubai .All fabrics and complete soft and hard furnishing supplies.

1996

Intercare factory outlet (Showroom) was established at the regional head office in Sharjah, UAE

1997

Overseas branch office of Intercare Limited was established in Abu Dhabi dedicated to overseeing Washroom Hygiene and Floorcare operations. This took over also the prior security fencing operations acquired in 1985.

1997

Launched the Intercare website with the UAE's first B2B capability.

First Private Label manufacturing contract with S.C. Johnson for "Windex" "Glance" and "Toilet Duck".

1998

Intercare introduces industrial sweepers. Awarded first contract by DUBAL

2000's

2000

Intercare (Overseas) Limited became Intercare Limited on 14th December 2000 in Cyprus, to conform to onshore regulations.

2003

Intercare expands outdoor sweeping products range with the introduction of street sweepers for municipalities. Awarded first public contract by Dubai Municipality

2003

Intercare completes construction of its present-day Sharjah premises including an office building and staff accommodation. Coatings plant capacity tripled. Chemicals manufacturing plant capacity increased to 48,000 tons per annum

2003

Intercare Steel LLC sets up a subsidiary specializing in metal construction and contracting, based in Sharjah, UAE.

2003

Relocated the regional head office to custom-designed headquarters in Industrial Area 15, Sharjah, UAE.

2005

Intercare commissions aerosols manufacturing unit in Sharjah with an annual production capacity of 50 million aerosol units. Private Label contract with Carrefour signed for 20 SKU's.

2005

Establishes Intercare Egypt LLC and Intercare Trading and Services LLC in Cairo, Egypt by setting up a chemicals manufacturing plant with an annual production capacity of 30,000 tons. Secures Private Label contract with Diversey Inc., USA.

2010's

2010

Establishes Intercare Morocco

2011

Intercare commences new factory construction and expansion of chemicals manufacturing plant in Egypt

2013

Intercare Egypt LLC enters a joint venture with Calvatis Calgonit GmbH, a German company specializing in the production of detergents and disinfectants and formed Calvatis Egypt LLC

2014

Intercare Limited enters a joint venture with SCA Hygiene, a Swedish company specializing in solutions for hygiene and health industries and SCA Intercare BVI is formed for production of tissue products

2014

The BVI entity forms a subsidiary in Dubai to set up a paper converting plant.

2015

Launched the Intercare Homedelivery website, an online platform to cater to the B2C segment

2017

SCA-Intercare joint venture (BVI Entity) acquired by Intercare.

2018

Intercare completes the expansion of chemicals manufacturing plant in Egypt in Q4 2018 with production capacity of 50,000 tons

2019

Intercare Limited Cyprus celebrates its Golden Jubilee. Carrefour Private Label contract increased to 56 SKU's.

Since 2020's

2023

Service Station created exclusively for the Repair and Maintenance of Municipal Street Sweepers.

2024

Intercare Limited completes 50 years of operation in the UAE celebrating its Golden Jubilee.

2024

Established a new vertical for the supply and services of institutional and laundry chemicals in UAE.

2026

Intercare Limited – Sharjah becomes Intercare LLC, ICL Tissue Manufacturing LLC created and Intercare Limited - Abu Dhabi becomes Intercare Facilities Management Services L.L.C.

2026

Intercare Holdings Limited (DIFC) incorporated and acquires Intercare LLC, ICL Tissue Manufacturing LLC, Intercare Dubai LLC, Intercare Steel LLC, Intercare Chemicals LLC and Intercare Facilities Management Services LLC, as well as Intercare Egypt Ltd and its underlying subsidiaries.

50+ YEARS OF EXCELLENCE

DIVERSE SOLUTIONS

STRONG PRESENCE

BUILT FOR THE FUTURE

FROM THE
CHAIRMAN'S DESK

As the proud founding member of **Intercare,** one of the pioneering companies in institutional cleaning and sanitation products and services with an illustrious track record, I can proudly say that we have developed an organizational culture that's underpinned by a commitment to delivering sustainable methods and a safer environment. Established in **1969** in the Levant region, over the last half a century, Intercare has expanded into the GCC countries, Egypt and Morocco, with a portfolio of its own brands and major global brands of **hygiene, Floor Care, and Waste Care** products and solutions.

At Intercare, our aim is to achieve and maintain leadership in our business by manufacturing and providing products and services that create economically viable communities. The company is committed to accomplishing this by aligning commercial success with environmental and social responsibility.

Looking forward, we strive to continue improving our products, services, and efficiency in terms of technology and processes. Currently, all our efforts are focused on developing a new-generation range of products, and efficient manufacturing capabilities that facilitate high-quality production and cost-effectiveness.

As a responsible corporate citizen, Intercare ensures that highly skilled, high-caliber professionals manage the functioning of the organization, while dedicated and thoroughly trained staff undertakes the services provided to the end-users. The corporate infrastructure has evolved to flawlessly look after the interests of all the stakeholders at Intercare and I am greatly indebted to our CEO, Management Colleagues, Group members, Employees, Customers, and Suppliers, for their commitment and support which enables us to deliver undoubtedly the best in the industry.

Mr. JOHN H COLLEY
Chairman

WASHROOM HYGIENE

The Intercare Group has been a pioneer in the field of washroom hygiene products, with a strong presence in the Middle East. With almost five decades of experience in both institutional hygiene and cleaning services, Intercare' s business ethos has always been focused on delivering high quality. Our prowess in manufacturing and delivering quality products has allowed us the luxury of catering to diverse business segments throughout the MEA region. Today, we offer an extensive range of products, including sustainable hand wiping solution - linen towel rolls, air fresheners, auto sanitizer drip systems, feminine bins, nappy bins, vending machines, hand soap, hand towel and toilet paper.

The quality and reliability of the services offered by Intercare is unparalleled. Intercare has a dedicated service division that boasts a full-fledged fleet and well-trained service operators, delivering service throughout the length and breadth of UAE.

AIR DIFFUSER AND REFILLS

IC Air Diffuser is a user-friendly aroma diffusion system that covers up to 2,000 m³. The diffuser can be connected either to the AC duct or can be used as a standalone fixture. This scenting system creates a relaxing, inviting and a long-lasting scented environment especially for larger areas. IC air diffuser can be used in hospitals, hotel lobbies, Restaurants, Spas, Airports, Malls etc.

MOST COMPACT SUSTAINABLE COTTON TOWEL MASTER

Eco-Friendly & Sustainable

Stringent Towel Cleaning Process

No Spillage, No Wastage

TOWEL MASTER SERVICES

Intercare offers the most distinctive and eco-friendly hand wiping solution, which is the cotton towel roll. Popularly known as towel master service, this is a unique service contract where we provide a special cotton towel roll dispenser, that features an automatic retraction of each used towel portion from the 35-meter roll that dispenses 200 pulls of clean towel. The dispenser has two separate compartments, to separate the used towel and the fresh one. The used rolls will be collected by our dedicated team and will be washed and sterilized in our specialized in-house laundry according to the strictest hygiene standards. This is one of the most cost effective hand wiping solution as this will reduce consumption compared to hand tissue. Each pull 20cm sized towel portion will be dispensed which is exactly the size required to cover your hand. There will be no spillage, no messy-floors and no blockages in the WC where in some case customers tend to dispose the tissue in the WC. It provides unrivalled hygiene and environmental benefits while delivering a 'comfort like home' hand drying experience to the end user.

We make it an obligatory goal to maintain an ecological balance between conservation and waste management in all our endeavours.

WASHROOM HYGIENE

AIR MASTER SERVICES

Intercare pioneered the concept of air master service in the UAE during 1980s'. The service includes installation, monthly refill changing and maintenance of the dispensers at customer's site. The system-generated schedule of the service does not require reminders and no hassle of follow-up or missing the service schedule. Our dedicated service division with more than 60 trained service professionals, handle the entire operations across the UAE.

SOAP / SANITIZER MASTER SERVICES

We take care of your hand soap and hand sanitizer requirements by taking care of the refilling as per the monthly schedule. We take care of the installation and maintenance of the soap/sanitizer dispenser and ensure regular supply of refills monthly. The service is done based on an annual rental contract which can be renewed every year. This will leave you tension free of the supplies as well as the additional inventory stocking.

AIR DIFFUSER SERVICES

Our professional scenting service utilizes advanced cold-air diffusion technology to convert essential oils into a fine, refreshing dry mist, preserving aromatic integrity without the use of heat. We provide high-performance, electrically powered dispensers with 100ml,250ml,400ml,500ml,1-6ltrs capacity, tailored to your space requirements.

PAPER MASTER SERVICES

We offer a comprehensive solution for our customer's hand wiping needs. The paper master service includes the rental of tissue dispensers for a contractual period, whereby the customer can use any tissue dispenser free during that period, for which the tissue paper will be supplied by Intercare at reasonable prices. The service includes the installation, refilling and maintenance of the dispensers. The tissue will be delivered based on a pre-determined schedule as per the frequency required by the customer. With our service, you won't be required to keep extra inventory of tissues.

AUTO SANITIZER SERVICES

The Auto Sanitizer Dispenser is a very effective solution for continuous sanitizing of the urinals and WC, especially in high traffic areas like malls, airports and hospitals. This is a drip system attached to the flush tank/Urinals/WC which will dispense a unique formula as per the set intervals. This formula, along with the flush water spreads to all parts of the urinal bowl and pipes, killing the bacteria that generates scales and bad odours. This will also prevent clogging of the pipes. The mildly fragranced formula will also give a pleasant smell to the washroom. This will help the customers to reduce the manpower as daily cleaning of toilets are not required. We do the complete process starting from installing the dispensers, changing the refills monthly & maintenance of the same.

SANITARY & NAPPY BIN SERVICES

Intercare's Feminine hygiene waste disposal service provides optimum solution for discarding sanitary waste in a safe, sensitive, and environmentally friendly manner. Our trained lady service operator will visit your premises once, twice or thrice in a week based on the washroom footfall, will collect the waste, disinfect and clean the bin and place new liners, with a special antibacterial powder that prevents the spread of bad odour and bacteria from the sanitary waste. The waste collected is brought back in dedicated vehicles and disposed off in the prescribed manner. The comprehensive checklist includes not only the cleaning and disinfecting of bins, but also includes the maintenance of the bins, thereby ensuring flawless service at each site.

SANITARY PAD & NAPPY VENDING MACHINE SERVICES

Sanitary Pad Vending machines placed at the client's site are a value-added service to support enhanced hygiene standards. The sanitary pad vending machine with refills (tampons and panty pads) in restrooms brings relief to women.
We also offer an equally safe and hygienic nappy baby vending machine which is supplied by Intercare with the refills (nappy/diaper). In our view, baby vending machines are one of the most common and important items in public washrooms where the users' comfort matters.

FLOORCARE

Floorcare Division is trusted as a known solution provider in the Cleaning Industry. Today, taking a cross-section of the entire Institutional market sector, the Groups reputation is very widely witnessed. Its range of products includes Carpet and Upholstery Shampooing, Floor Scrubbing, Escalator Cleaning, Pressure washing and Polishing with probably the largest range of Vacuum Cleaners. Intercare's inventory is complemented by an entire family of ecofriendly solution of Scrubber-Dryers and Outdoor Sweepers. Our range of products do not compromise on quality and are sourced mainly from European Countries, US and Australia. All our Suppliers for IC Blue Line range are ISO 9001 Certified.

As a comprehensive supplier of cleaning equipment's, janitorial accessories, cleaning and restoration chemicals for natural and synthetic stones it's a single source solution provider. After Sales Support Program undertaken by highly trained and skilled staff supported by a dedicated On-site workshop.

FLOORCARE

SCRUBBER DRYER (WALK BEHIND)

CT15

The small dimensions allow this professional floor scrubber to work in confined areas and spaces such as sanitary facilities, and in furnishing environments such as offices and schools.

Low Foam Chemical

HD Degreaser / Faber 30 - Epoxy Floor

13"

KEY FEATURES

- Large Tank Capacity - 16 l
- Great Maneuverability - 90 cm External Radius
- Great Productivity - 1225 sqm/h
- Hard Floor and Carpet applications
- Handle Setting 50 to 1200 cm
- Three Stage Vacuum Motors

CT30

The adjustable handle has been designed so that cleaning operations in difficult to reach areas can easily be achieved and with its large tank capacity and long battery.

Low Foam Chemical

HD Degreaser / Faber 30 - Epoxy Floor

17"

KEY FEATURES

- Handle Setting 50 to 1200 cm
- Three Stage Vacuum Motors
- Compact Working Heigth 55 cm
- Large Tank Capacity - 28 l
- Great Productivity - 1575 sqm/h
- Great Maneuverability - 1050 mm External Radius

CT46

The CT46 is a walk behind scrubber dryer that combines a compact design with the power of performance. Professional squeegee, making cleaning simple and fast.

Low Foam Chemical

HD Degreaser / Faber 30 - Epoxy Floor

20"

KEY FEATURES

- Transport wheel
- Professional V shape squeegee
- Large Tank Capacity - 40 l
- Great Maneuverability - 1200 cm External Radius
- Great Productivity - 1750 sqm/h

CT46 C

The CT46 is a walk behind scrubber dryer that combines a compact design with the power of performance. Professional squeegee, making cleaning simple and fast.

Low Foam Chemical

HD Degreaser / Faber 30 - Epoxy Floor

20"

KEY FEATURES

- Transport wheel
- Professional V shape squeegee
- Large Tank Capacity - 40 l
- Great Maneuverability - 1200 cm External Radius
- Great Productivity - 1750 sqm/h

CT71 WITH ELECTRIC TRACTION

This professional floor cleaning machine ensures maximum productivity: up to 3150 m2/h, while the 3.5 hours of battery life allow you to work continuously and without interruption.

Low Foam Chemical

HD Degreaser / Faber 30 - Epoxy Floor

11"

KEY FEATURES

- 4 interchangeable brush heads for different applications and overall easly maintenance
- Electric compartment - fully protected and easy to check.
- Integrated battery charger with easy access for maintenance
- Adjustable handle for a comfortable and easy use
- APC Brush reduces solution required
- Two pre-setting programs

CT71 XP20" ORBITAL WITH ELECTRIC TRACTION

This professional floor cleaning machine ensures maximum productivity: up to 3150 m2/h, while the 3.5 hours of battery life allow you to work continuously and without interruption.

SCRUBBER DRYER (RIDE ON)

CT80

The CT80 is a ride on scrubber-dryer with a compact design and built with durable materials, designed for cleaning medium sized surfaces. The ergonomics of the machine and seat ensure operator comfort

Low Foam Chemical

HD Degreaser / Faber 30 - Epoxy Floor

20"

KEY FEATURES

- 150 min. running time
- Great Maneuverability - 185 cm minimal turning radius
- Powerful motor - 16% Climbing angle
- Easy - Pre-programmed working settings
- Yellow Touch Point for an easy daily maintenance
- 2 Batteries - 105 Ah

CT110

Ideal for large spaces, the CT110 is a ride-on scrubber-dryer designed for cleaning industrial floors, warehouses, workshops and shopping malls. With the possibility to have up to 4 hours continuous operation.

Low Foam Chemical

HD Degreaser / Faber 30 - Epoxy Floor

16"

KEY FEATURES

- Powerful motor - 16% Climbing angle
- Yellow Touch Point for an easy daily maintenance
- Reliability - Easy Electronic Concept
- Easy to Service - Full Acces Internal Parts
- Great Maneuverability - 190 cm minimal turning radius

CT160

Among the ride-on scrubber dryers, the CT160 stands out for its extraordinary performance combined with cutting-edge technology. It is possible to set and customize up to three washing programs for maximum versatility.

Low Foam Chemical

HD Degreaser / Faber 30 - Epoxy Floor

17"

KEY FEATURES

- Powerful motor - 16% Climbing angle
- Yellow Touch Point for an easy daily maintenance
- Easy to use - Three Working program
- Long working running time 360 min.
- Extremely compact with great maneuverability

CT160 SW

Among the ride-on scrubber dryers, the CT160 stands out for its extraordinary performance combined with cutting-edge technology. It is possible to set and customize up to three washing programs for maximum versatility.

Low Foam Chemical

HD Degreaser / Faber 30 - Epoxy Floor

KEY FEATURES

- Powerful motor - 16% Climbing angle
- Yellow Touch Point for an easy daily maintenance
- Easy to use - Three Working program
- Long working running time 360 min.
- Extremely compact with great maneuverability

CT231

The Ct231 is a ride on scrubber-dryer built with versatility and robustness. You can wash large surfaces such as industrial floors, tiles or linoleum with the confidence that you have a solid and safe machine at your disposal.

Low Foam Chemical

HD Degreaser / Faber 30 - Epoxy Floor

20"

KEY FEATURES

- Powerful motor - 16% Climbing angle
- Yellow Touch Point for an easy daily maintenance
- Easy to Service - Full Acces Internal Parts
- Easy to use - Three Working program
- Long working running time 360 min

CT231-R

The Ct231 is a ride on scrubber-dryer built with versatility and robustness. You can wash large surfaces such as industrial floors, tiles or linoleum with the confidence that you have a solid and safe machine at your disposal.

Low Foam Chemical

HD Degreaser / Faber 30 - Epoxy Floor

WALK BEHIND MANUAL SWEEPER

ALTON AL-920

AL-920 manual sweeper is designed with dust removal dkylight, which can effectively prevent dust overflow and cause secondary pollution. Equipped with rolling brush and two side brush, sweeping width up to 920mm, can quickly sweep a large area.

IPC 510

- Main brush with neutral design to collect debris forward
- Debris hopper of great capacity, easily removable for manual discharge operations
- Handle adjustable at 2 halfway heights.
- Main brush pressure adjustment.

MULTIPURPOSE MACHINE

MULTIWASH™ PRO 340 / 440

The new re-designed range of Multiwash PRO scrubber dryers will wash, scrub and dry in just one single pass. Giving improved cleaning results, your floors will be left clean and dry ready for your customers and staff to walk on.

All Purpose for Floors/Carpet Shampoo for Carpet & Degreaser for Escalator

Brushes for Carpet/Hard Floors/Escalators

SIMPLE
One simple push button to dispense cleaning solution

POWERFUL
Counter-rotating cylindrical brushes scrub & lift dirt & water onto a rotating recovery drum to pick up solution

EFFICIENT
Exceptional pick up of solution that leaves floors ready to walk on in seconds

VERSATILE
Effective on all floors with brushes available for carpets, hard floors, escalators and entrance matting

MULTIWASH™ PRO STEAM

The Multiwash PRO Steam not only provides exceptional cleaning results due to its counter-rotating brushes, but with the additional steam function will sanitise floors, killing up to 99.99% of bacteria.

All Purpose for Floors/Carpet Shampoo for Carpet & Degreaser for Escalator

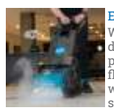

Brushes for Carpet/Hard Floors/Escalators

HYGIENIC
Tested in a certified lab to remove >99.99% of bacteria

INFECTION CONTROL
With the addition of the steam, dirt and grime will be removed easier than traditional cleaning methods

EFFICIENT
Wash, scrub and dry in just one pass, leaving floors ready to walk on in seconds

VERSATILE
Effective on all floors with brushes available for carpets, hard floors and entrance matting

ASSORTED MACHINES

MEDUSA

Industrial battery-powered sweeper for the quick, quiet and cordless cleaning of all surfaces, indoor and outdoor.

The full floating main cylinder brush individually adapts to any surface, whether hard surface or carpet.

Standard quick charging unit. Charging time of 90 minutes per battery. Efficient regardless of batteries level at the time of charging. Fully-equipped with two batteries, the operation time lengthens to 90 minutes.

TECHNICAL DATA

Voltage (charging unit)	230 V / 50 Hz
Operating voltage	10,8 V / 1,5 Ah
Max. power	25 W
Battery duration	45 min / battery
Sound pressure level	63 dB(A)
Container material	plastic
Container volume	2 litres (gross)
Weight	2,8 kg
Dimensions (L x W x H)	30 x 36 x 11 cm

CIMEX X46

Escalator and travellator cleaner that gives a powerful cleaning and vacuuming performance and is ideal for airports, shopping centers, retail stores, underground stations and hotels.

- Powerful vacuum to pick up dust
- Easy to change disposable bags
- Portable for multi-escalator sites
- Powered rotating brushes for fast, effective cleaning

J-4000

The Jiffy® Steamer J-4000 are used in commercial & industrial applications in a variety of settings including:

- Removing wrinkles from all fabrics
- Reducing the need to iron
- More gentle on fabrics than ironing
- May be used on most materials or fabrics
- Great for tablecloths, bedding, and delicate materials

TECHNICAL DATA

- Available with 6" wide metal head
- All brass couplings
- Solid die cast aluminum outer housing for durability
- 1500 watt incoloy heating element
- 50/60 Hertz electrical system
- 304 stainless steel internal boiler tank
- Color-coded high temperature wiring
- Convenient STANDBY and STEAM settings
- Fusible link with automatic shut-off for safety
- 360 degree swivel casters for mobility
- Carton size: 20"x 12 x 13"

MINIPOWER CPL

Orbital machine. Clean and polish where rotary cleaners cannot work

Minipower is a little machine with a big performance! With its "square" brush it can clean and polish even where the rotary cleaning machines cannot. It's the ideal solution for stairs, corners, small bathrooms, kitchens and narrow areas.

TECHNICAL DATA

Motor Watt Max	150
Volt	110/220
Hertz	50/60
Speed Tools	45 osc/sec
Working width	250x120/310x140mm
Water Tank	8 Ltr.
Weight	11 Kg
Dimension(WxHxD)	42x110x25 cm

LIA PRO

Discover new cleaning possibilities.

Battery powered floor scrubber dryer with high performance, quality and easiest control of the machine while cleaning.

Thanks to its high performance, easy handling, Lia is suitable for cleaning small, medium and medium large sized areas. Thanks to its compactness, you will welcome how easy is to transport the machine to another building for another cleaning task.

TECHNICAL DATA

Voltage	36 V
Working efficiency (up to)	1 190 m²/h
Clean / dirty water tank capacity	5.2 L / 9 L
Running time up to	70 / 140 min
Net weight (without batteries)	21.8 kg
Net weight (with batteries, full water tanks)	24.8 kg
Working width	42 cm
Squeegee width	43 cm
Squeegee positioning	behind brush

CLEANING ACCESSORIES

KGS SPEEDLINE

The original standard in stone and concrete polishing industries. Excellent in quality and performance. This KGS technology is exceptional for dry polishing of non colored concrete where its dark coloured resin leaves a natural concrete coloured finish. The KGS Speedline diameter 125 mm is the ideal size for edge polishing of floors allowing access under pipes and around obstacles.

KEY BENEFITS

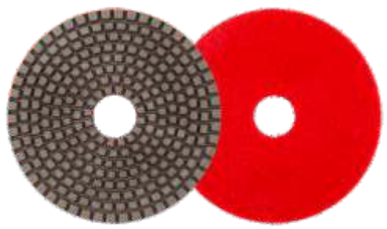

- Excellent quality and performance
- Leaves a natural concrete coloured finish
- Ideal size for edge polishing of floors

CLEANING & POLISHING PADS

RED PAD - COARSE

Step 1 – Coarse pad is mainly used for heavy duty surface renovation. Intended for deep cleaning and as a base to establish a good starting point for the rest of the process.

– Rough, greasy or very dirty surfaces.
– Process starter/ Occasional use

Available in 17"

BLUE PAD - MEDIUM

Step 2 – Medium pad can be used for deep cleaning and produces an economical light reflective finish, most popular in large industrial and commercial applications.

– Very high traffic floors, dusty areas.
– Occasional deep cleaning/ Daily for light gloss

Available in 17"

YELLOW PAD - FINE

Step 3 – Fine pad is intended for both daily polishing and cleaning, producing a clear reflective shine.

– All floors/ Maintenance
– Regular finish/ Daily for high gloss

Available in 17"

GREEN PAD - VERY FINE

Step 4 – Very Fine pad, used wet or dry will finish off the four step process leaving a polish to your floor with the highest shine available. Daily use will maintain and improve the polish.

– All floors/ Cleaning/ Buff
– Daily for Cleaning/ Extra high gloss

Available in 17"

CREAM PAD - ULTRA FINE

Ultra Fine pad for extra high gloss

Available in 17"

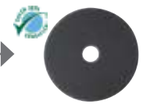

CLEANING ACCESSORIES

FLOORCARE

FLOOR CLEANING PADS

STRIPPING
To remove finish, sealer and contaminants from the floor surface.

Low Speed
175–600 RPM

Black Stripper Pad

For consistent, proven performance, with a longer pad life. 40% more aggressive than competitive pads.

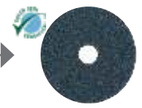

Brown Stripper Pad

Conformable stripping pad for uneven floors which strips prior to refinishing. Super heavy duty scrubbing for removal of 2-4 coats prior to recoating

SCRUBBING
To provide a fresh new surface for finishing.

Low Speed
175–600 RPM

Blue Cleaner Pad

Heavy-duty scrubbing of floors. 7X faster than competitive pads.

Green Cleaner Pad

For wet cleaning, removes marks and soil from floors, and it is used for scrubbing and recoating operations.

CLEANING
To remove light soil and other contaminants.

Low Speed
175–600 RPM

Red Buffer Pad

For everyday cleaning & light scrubbing. Removes light soil, scuff marks and black heel marks.

White Super Polish Pad

Ideal for removing soil and scuff marks with minimal dulling. Also used to polish wood floors.

BUFFING
To remove scuffs and black heel marks & enhance floor appearance.

Low Speed
175–600 RPM

Red Buffer Pad

For everyday cleaning & light scrubbing. Removes light soil, scuff marks and black heel marks.

White Super Polish Pad

Ideal for removing soil and scuff marks with minimal dulling. Also used to polish wood floors.

STONE FLOOR MAINTENANCE
To clean and polish stone floors with medium shine in good condition.

"Low to Ultra High Speed
175–1500 RPM & Above"

Purple Diamond Floor Pad

Diamond-coated floor pad for cleaning and polishing marble, terrazzo, slate and polished concrete flooring.

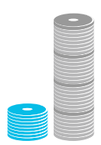

FEWER PASSES

Specially designed to improve productivity, 3M™ Floor Pads clean and scrub more effectively on each pass. So it takes less time to achieve the results you need.

CONSISTENT PERFORMANCE

Many 3M™ Floor Pads have abrasive minerals distributed uniformly throughout the entire pad — inside and out. So even as they wear, you get consistent, high quality results.

LONGER LIFE

It takes 4X as many competitive pads to strip a floor compared to a 3M™ Stripping Pad. Longer-lasting floor pads need to be replaced less often, contributing to less waste in landfills.

FEWER CHEMICALS

3M's abrasive technology is effective using only water for many floor maintenance operations.

ENVIRONMENTALLY RESPONSIBLE

Many 3M™ Floor Pads are Green Seal™ Certified based on a design for significantly improved performance, durability, or both, extending the useful life of the floor pad and reducing solid waste generation.

CLEANING CHEMICALS

HEAVY-DUTY CLEANING

FABER 30

- Effective on stubborn greasy dirt
- Ideal to remove shoes/tire marks
- Deep Extractive action

CAN BE APPLIED WITH

Cloth, mop, single-disc machine, hard floor cleaner

WHERE TO APPLY

Slate, Cotto, Granite, Porcelain gres Lappato, Porcelain gres Honed, Porcelain gres Natural or Structured, Porcelain gres Structured, Marble, Terracotta and Travertine

DISYCOTT

- It's specific for cement residues
- Acid pH
- Also effective on paint, efflorescences, and inorganic dirt

CAN BE APPLIED WITH

Scrubbing brush, brush, mop and floor machine.

WHERE TO APPLY

Cotto, terracotta tiles, porcelain stoneware, granites, stones not acid sensible, clinker, enamelled ceramic, porphyry, quartz base agglomerates.

EPOXY RESIDUE REMOVER

- It removes stubborn epoxy residues
- Ready to use
- Fast action

CAN BE APPLIED WITH

Cloth, mop, single-disc machine

WHERE TO APPLY

This product can be used on both indoor and outdoor surfaces.

DETERFUG

- Heavy-duty cleaning
- Effective on organic and inorganic dirt
- It removes deep metal marks

CAN BE APPLIED WITH

Scrubbing brush, brush, mop and floor machine.

WHERE TO APPLY

All kind of surface resistant to acids. Natural stones, honed, brushed, aged. Slate, quartz agglomerates, enamelled ceramic, honed and structured terracotta tiles, polished granite, removal of grout (even epoxy).

COTTOSOLV

- It removes greasy dirt and oily stains
- Alkaline pH
- Concentrated formula

CAN BE APPLIED WITH

Scrubbing brush and floor machine.

WHERE TO APPLY

Cotto, terracotta tiles, marbles, slates, granites, stones, travertine, porcelain stoneware and ceramics.

DEC 21

- Solvent-based formula
- It removes greasy dirt and oily stains
- Deep action

CAN BE APPLIED WITH

Brush, scrubbing brush, floor machine.

WHERE TO APPLY

Terracotta, marble, granite, slate, stones natural, polished, honed, brushed, sanded or natural, porcelain stoneware, ceramic, etc.

DAILY CLEANING

NEUGEL

- A little goes a long way
- Nourishing formula
- It doesn't affect the applied treatments

CAN BE APPLIED WITH

Floor Machine and mop

WHERE TO APPLY

The product can be applied on every type of natural surface.

ALGAFLOOR

- A little goes a long way
- Neutral pH
- Specific for low-absorbing materials

CAN BE APPLIED WITH

Scrubbing brush – Floor Machine – Wet vacuum

WHERE TO APPLY

Dilute product as recommended DILUTION: 20 - 30 g / Lt for ceramic, quartz and porcelain stoneware 40 - 50 g/lt on general stone and marble surfaces. Proceed to clean as with traditional cleaner

RESTORATION

ABR 600

- Micro-honing cream
- It restores defects and abrasion
- Soft matt finish

CAN BE APPLIED WITH

Manually – Floor machine – Roto-Orbital

WHERE TO APPLY

Marbles, Stones, Ceramic and reconstituted materials.

CLEANING CHEMICALS

STAIN REMOVAL

OXIDANT

- Humidity stains, smog, tannin, yellowing...

CAN BE APPLIED WITH

Brush , pour the product directly

WHERE TO APPLY
Every type of material.

MAR GEL PLUS

- Rust

CAN BE APPLIED WITH

Brush

WHERE TO APPLY
Marbles and limestones.

EXTRACTOR

- Humidity stains, smog, tannin, yellowing...

CAN BE APPLIED WITH

Pour the product directly

WHERE TO APPLY
Every type of material.

NO MAC GEL

- Coffee, drinks, ink, mold, algae...

CAN BE APPLIED WITH

Brush , pour the product directly

WHERE TO APPLY
Every type of material.

FABER POULTICE

- Humidity stains, smog, tannin, yellowing...

CAN BE APPLIED WITH

See stain cleaner technical data sheet

WHERE TO APPLY
The product can be applied on any kind of surface.

NO RUG

- Rust

CAN BE APPLIED WITH

Brush , pour product directly

WHERE TO APPLY
Any type of silica material and also some unpolished marble materials.

ACID & SCRATCH RESISTANT

AS 930 CP

- Stain-resistant
- Scratch-resistant
- Safe for food contact

CAN BE APPLIED WITH

Brush, roller, mop or sprayer.

WHERE TO APPLY
For internal/external aged, rough or sanded marble, granite & natural stone. Cobblestone & slate surfaces.

STAIN RESISTANT - PROTECTION

P 147

- No film or patina
- Matt-finish
- It makes maintenance easier

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
Agglomerate cement-marble, Agglomerate resin-marble, Slate, Sandstone, Basaltina - Lava Stone, Molted basalt, Cement tile, Concrete, Cotto, Granite, Limestone, Marble, Manufactured Stone (Eco-stone), Porphyry, Quartzite, Terracotta, Travertine, Tuff

DEEP ENHANCER

- Specific for compact surfaces
- It doesn't alter surface shine
- It repels stains and facilitate the maintenance

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
For internal/external polished marble, granite and any compact natural stone. Quartz agglomerate, porcelain tiles and ceramics.

ANTI SLIP

YS ONE / YS ONE 30

- It maintains the original look
- It doesn't leave film or residues
- No maintenance needed

CAN BE APPLIED WITH

SRAYER, BRUSH , MOP.

WHERE TO APPLY
For any type of slippery silica material.

SAFE MARBLE

- It maintains the original look
- It doesn't leave film or residues
- No maintenance needed

CAN BE APPLIED WITH

Brush, lambswool applicator, roller, airless

WHERE TO APPLY
Can be used on both indoor and outdoor surfaces. Marble-cement agglomerates marble-resin agglomerates, limestone, ravertine, & lime-based stone in general.

PROTECTION CHEMICALS

SEALERS

HIDRO PROTECTOR MM

- High performing
- Water-based formula
- Certified safe for food contact

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
For internal/external marble, granite and natural stone.

HIDRO SST

- Specific 6-sides treatment
- Water-based formula
- Certified safe for food contact

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
For internal/external polished or rough marble, granite and natural stone.

PROTEX WB

- High performing
- Water-based formula
- Certified safe for food contact

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
Agglomerate cement-marble, Agglomerate resin-marble, Agglomerate resin-quartz, Slate, Sandstone, Basaltina - Lava Stone, Granite, Limestone, Marble, Quartzite and Travertine

DPS

- Innovative solvent-based protection
- Suitable for already installed and damaged surfaces
- Effective also for low absorbing stones

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
Agglomerate cement-marble, Agglomerate resin-marble, Agglomerate resin-quartz, Slate, Sandstone, Basaltina - Lava Stone, Granite, Limestone, Marble, Quartzite and Travertine

STAIN RESISTANT - PROTECTION

HIDRO 150

- Water-based formula
- UV Resistant
- Long-Lasting

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
For internal/external marble, granite and natural stone. Artificial materials, rough stone in general.

PROTW LUX

- Fast-drying
- Strong Repellency
- It doesn't alter the original look

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
For internal or external terracotta, marble, granite, structured ceramic and natural stones. For any material with medium/high absorbency.

PROTEX

- Fast-drying
- Strong Repellency
- It doesn't alter the original look

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
For internal or external terracotta, marble, granite, structured ceramic and natural stones. For any material with medium/high absorbency.

B1/700

- Fast-drying
- Strong Repellency
- It doesn't alter the original look

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
For internal or external honed and rough limestone, natural stone, marble, granite, volcanic stone.

POLISHING

STAR SHINE EASY

- No water required
- Provides dirt resistance
- It restores the brightness

RESTORE & RE-POLISH

PROVIDES DIRT RESISTANCE

CAN BE APPLIED WITH

Floor machine 150/175 rpm or orbital wheel

WHERE TO APPLY
For internal/external polished or finely honed granite surfaces.

POLISHING

STAR SHINE

- Vitreous effect
- High-performing cream
- Provides dirt resistance

CAN BE APPLIED WITH

Floor machine 150/175 rpm or orbital wheel

WHERE TO APPLY
For internal/external polished or finely honed granite surfaces.

UNIVERSAL GLOSSY

- No water required
- Ideal for mixed-materials
- Able to polish difficult stones

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
For internal/external polished marble, granite and any compact natural stone. Quartz agglomerate, porcelain tiles and ceramics.

PORCELAIN RESTORATION CREAM

- A little goes a long way
- It restores scratches and defects
- Easy to apply

CAN BE APPLIED WITH

Single disc machine with at least 1.5 HP; manual rotary brush

WHERE TO APPLY
For internal/external polished.

A3 YELLOW

- Vitreous effect
- High-performing powder
- Long-lasting results

CAN BE APPLIED WITH

Floor machine 150/175 rpm and roto-orbital machine

WHERE TO APPLY
For marble, terrazzo, agglomerates, limestone and other compact calcium based stone.

TCB 12

- Specific for polishing maintenance
- Long-lasting effect
- Easy and ready to use

CAN BE APPLIED WITH

Brush, Roller, Lambs wool, Sprayer

WHERE TO APPLY
Agglomerate cement-marble, Agglomerate resin-marble, Slate, Sandstone, Basaltina - Lava Stone, Molted basalt, Cement tile, Concrete, Cotto, Granite, Limestone, Marble, Manufactured Stone (Eco-stone), Porphyry, Quartzite, Terracotta, Travertine, Tuff

ABR 600

- Micro-honing cream
- It restores defects and abrasion
- Soft matt finish

CAN BE APPLIED WITH

Manually – Floor machine – Roto-Orbital

WHERE TO APPLY
Marbles, Stones, Ceramic and reconstituted materials.

WASTECARE MANAGEMENT

With our undiluted commitment to a Cleaner, Greener, and Sustainable Globe, we truly understand that smart waste management solutions are the need of the hour for keeping the planet desirable for generations to come. From household waste management accessories to industrial waste collection equipment, Intercare – Manufactures, Supplies, and Services a wide range of products. Moreover, Intercare has been appointed as the exclusive distributor of some of the world's most eminent brands of Waste Care products and solutions.

Our range of products includes ***Street Sweeper, Street Washing system with advanced Steam Plus (Hot Water option) for Chewing gum removal, Underground Compactors with a hydraulic underground lifting system, Underground and semi-underground Waste Containers, Smart Waste Collection system, E-vehicle for Smart and Sustainable Waste Collection system, Smart bins with Solar Power and Compaction system, Plastic and Metal waste bins and Galvanized Waste Collection Trolley,*** etc.

DULEVO FAYAT GROUP

Intercare is the Exclusive distributor of Dulevo Products (Heavy Street sweepers & Washers) in the UAE

HEAVY DUTY MECHANICAL STREET SWEEPERS

Dulevo sweepers are designed to lean large areas both indoors and outdoors: warehouse, supermarkets, factories, airstrips, streets and car parks.

Duleo is the only company that uses an identical ultrafine filtering method in all its models, limiting itself to adopting it to the size of the various types of application.

Dulevo D6 Veloce EU6

- Fast transfers up to 80 km/h with two-speed gearbox
- Rear air suspension and stable handling in all conditions
- Four-wheel independent ABS system for safe braking on all surfaces
- Dulevo mechanical-suction-filtering technology: effective even without water
- Low-emission, low-consumption Euro6E diesel engine

Dulevo D6 Eu6

- Cleaning track central brush (mm) - 1300
- Cleaning track central brush and side brushes (mm) - 2800
- Cleaning track central brush, side brushes and third brush (mm) - 3600
- Waste container volume (m3) - 6,2
- Hourly performance (m2/h) - 108.000
- Turning circle diameter (mm) - 9675
- Power supply - Diesel

Dulevo 6000 Eu4

- Cleaning track central brush (mm) - 1300
- Cleaning track side brushes (mm) - 2600
- Cleaning track with side brushes and third brush (mm) - 3500
- Waste container capacity (m3) - 6,2
- Hourly performance (mq/h) - 105000
- Filtering surface (mq) - 99
- Power supply - Diesel

Dulevo D3 Tier 4

- Cleaning track central brush (mm) - 1300
- Cleaning track central brush and side brushes (mm) - 2150
- Cleaning track central brush, side brushes and third brush (mm) - 3200
- Waste container volume (m3) - 3,3
- Hourly performance (m2/h) - 90.000
- Steering diameter (mm) - 8300
- Power supply - Diesel

Dulevo 6000 Hydro

- Washing track with Standard bar (mm) - 2800
- Washing track with Spreader bar (mm) - 3200
- Water Tank Capacity (L) - 5900
- Cleaning Performance (m2/tank) - 30000
- Turning diameter (mm) - 9360
- Power Supply - Diesel

WASTECARE MANAGEMENT

DULEVO FAYAT GROUP

Intercare is the Exclusive distributor of Dulevo Products (Heavy Street sweepers & Washers) in the UAE

HEAVY DUTY SUCTION SWEEPERS

Dulevo DT8

- Cleaning track central brush (mm) - 1800
- Cleaning track central brush and side brushes (mm) - 2200
- Cleaning track central , side & third brush (mm) - 2700
- Waste container volume (m3) - 8
- Hourly performance (m2/h) - 40.500
- Turning diameter (mm) - 12000
- Power supply - Diesel

Dulevo 850 EU4 / EU6

- Minimum cleaning track (mm) - 1500
- Maximum cleaning track (mm) - 1850
- Waste container capacity (m3) - 0.81 / 1.09
- Hourly performance (m2/h) - 22.200
- Turning diameter (mm) - 6400 / 5600
- Power supply - Diesel

DULEVO RIDE-ON SWEEPERS

DULEVO 90

Waste compaction system and direct loading system combine to make the Dulevo 90 sweeper perfect for cleaning public areas, loading/unloading areas and heavy industry. With its easy access to all components and hydraulic technology, this machine is simple and cost-effective.

DULEVO 120

Its capacity to capture both the finest dust and gravel makes Dulevo 120 the perfect machine for working in any type of environment, even the dustiest. In fact, thanks to its direct-load, mechanical suction-filtering sweeping system, it guarantees excellent cleaning results even in particularly difficult working conditions.

DULEVO 1100

The Dulevo 1100 sweeper has the best features of any machine in its category. The Dulevo mechanical suction-filtering system guarantees a high working autonomy and excellent results, providing total dust control without the use of water

DULEVO 1300

High loading capacity, great power, high sweeping performance and a best-in-class suction system, the Dulevo 1300 sweeper has all the characteristics for professional cleaning of heavy-duty industry applications, public areas and loading/unloading areas.

ÜSTÜN-EL

FIL – BATTERY POWERED SWEEPER WITH MANUAL CONTROL

- 2 x 24 Volt, Electric motors, 1 for the vacuum fan & 1 for driving
- Electric type brake system
- Back and forth driving system with electric motor
- Dimensions (WxLxH): 850 x 1775 x 1670 mm
- 240 Liter trash tank
- Battery charging equipment
- 8-12 hours operation with full battery
- Moving speed up to 6 km/hour
- 115 mm Ø unbreakable suction pipe resistant to impacts
- Capable to climb up & down from pavements up to height of 12cm
- Environment friendly perfect filter system, special air system

FIL – GASOLINE OPERATED SWEEPER WITH MANUEL CONTROL

Engine Brand	: Honda
Motor Power	: 13 HP
Travelling-Operation Speed	: 0-6 km/hour
Fuel tank	: 27 liters
Dimensions (WxLxH)	: 900x1775x1790
Operation time with full fuel	: 20-25 hours
Suction Hose Diameter	: 115mm
Pavement Climbing Height	: Max 12 cm
Garbage Tank Capacity	: 240 lt
Noise Level	: From 4 meter 80 db lwa 30
Operation Place Slope	: Up to a slope of 25%

BIG FIL HYDROSTATIC LEAF COLLECTOR MACHINE

With the extra features of BIG FIL, which can be used as a vacuum cleaner thanks to its front brushes, it provides the user with safe driving & multi-functional sweeping & working.

- 4 Wheel Fan System and Electric Piston Control Arm
- Shredder fan system designed for high efficiency use of the trash can
- High quality irrigation system that prevents dust and is environmentally friendly
- Safe Driving and Multifunctional Sweeping
- KUBOTA 18.5 Kw (3000 rpm) Engine

ZIPO – BATTERY POWERED MULTI FUNCTIONAL TRANSPORTER

Special user friendly design, eco friendly, rapid, ergonomic, aerodynamic features for garbage collecting.

- Leaf Blower, Water Gun and Faster Driving
- Aerodynamic features for garbage collecting
- Special user friendly design, eco friendly, rapid, ergonomic
- Different features and different equipments are attachable
- Hydraulic controlled front, E/M controlled rear brakes
- 30-45 km range (depends on usage and road conditions)
- Waste Bin Capacity - 240 Ltrs

STUYF CARGO

Range	43 KM	86 KM
Vehicle size (LxBxH)	242 X 100 X 140 CM	
Pay-mass	250 KG	
Loading size (LxB)	160 X 95 X 80 CM	
Loading capacity	1,2 M^3	
Max. speed	25 KM/H	
Power	1700 W	
Battery pack chemistry	LITHIUM LFP	
Battery pack capacity	2.55 KWH (25.6V - 100Ah)	5.1 KWH (25.6V - 200Ah)
Vehicle mass	240 KG	260 KG
Vehicle category	L6E	
Drivers license requirement	AM OR B	

The Stuyf Cargo is a light electric vehicle developed for the use in dense urban areas. Versatile and very suitable for the last mile. With a range of 43 or 86 km, the battery has enough power for a day's work. You can step on and off the Stuyf easily while parking on the sidewalk. This makes the Stuyf Cargo ideal for activities that require many stops, like parcel delivery. Imagine the countless activities the Stuyf Cargo can support. Adding a mobile power supply and built-in tools, everything you need is at hand for service or maintenance work in the city center.

STUYF PICKUP

Range	43 KM	86 KM
Vehicle size (LxBxH)	230 X 100 X 140 CM	
Pay-mass	250 KG	
Loading size (LxB)	132 X 81 CM	
Loading capacity	1,2 M^3	
Max. speed	25 KM/H	
Power	1700 W	
Battery pack chemistry	LITHIUM LFP	
Battery pack capacity	2.55 KWH (25.6V - 100Ah)	5.1 KWH (25.6V - 200Ah)
Vehicle mass	215 KG	235 KG
Vehicle category	L6E	
Drivers license requirement	AM OR B	

The Stuyf Pickup is a light electric vehicle originally developed with and for municipalities. The Pickup has numerous applications. It can be used for waste collection, cleaning, landscaping, and maintenance in low-traffic city centers, or for housekeeping departments at vacation parks. With a loading area that accommodates a euro pallet and a range of 43 or 86 km, you can even create a mobile workstation with tools or equipment.

BEACH STAMPING ROLLER

Introducing the Beach Stamp Roller Attachment for beach cleaning machines, revolutionizing coastal management with creativity and efficiency. This innovative device seamlessly integrates into existing machinery, imprinting custom designs and messages onto freshly cleaned sands. Crafted from durable materials, it withstands harsh beach conditions while promoting environmental awareness and community engagement. Ideal for enhancing visitor experiences, promoting local initiatives, or conveying important messages, the Beach Stamp Roller Attachment transforms beach cleaning into a dynamic platform for communication and artistry. Enhance your beach management efforts today with this eco-friendly and impactful tool.

INTERCARE BINS

POLE BIN - SINGLE STREAM OUTDOOR LITTER BIN

- Material: External Strips - Wood Plastic Composites - Heavy Duty.
- Materila: Internal Frame - MS Steel - Powder coated + Coro Zinc 70 - 100 Micron.
- Capacity: 75 - 80 ltr
- Can be bolted to the ground
- 100% weather proof
- Opening door with Locking system
- Stainles Steel Ashtray on top (Optional)
- Sample is available for the demo
- Bin can be painted/coated any color, as per your approval

OUTDOOR LITTER BIN

- Material: Solid Round Bar around dia 12mm
- 2 no's of Metal Plate
- Surrounding Metal strips frame 4x30mm
- Powder coating finish, 2 coating system Coro zinc + Powder Coating 70-100 Micron
- 100% weather proof & Un Scratched Coating
- Heavy duty Metal inner liner
- Capacity: 120 \ 140 Ltrs
- Dimensions(cm): H:120, Dia:60
- Stainles Steel Ashtray Bowl
- Sample is available for the demo
- Bin can be painted/coated any color, as per your approval

DOUBLE STREAM, OUTDOOR LITTER BIN FOR BEACH & PARK ETC.

- Material: MS Steel, Powder coated + Coro zinc 70-100 Micron
- Heavy duty, long lasting bin
- Can be bolted to the ground
- 100% weather proof
- Locking system
- Sample is available for the demo
- Bin can be painted/coated any color, as per your approval

CHARCOAL BIN / CHARCOAL BIN WITH DRAWERS

- Material: MS Steel, Powder coated + Coro zinc 70-100 Micron
- Heavy duty, long lasting bin
- Can be bolted to the ground
- 100% weather proof
- Locking system
- Sample is available for the demo
- Bin can be painted/coated any color, as per your approval

DOUBLE STREAM, LITTER BINS - 170 LTR

- Material: External Strips - Wood Plastic Composites
- Materila: Internal Frame - MS Steel - Powder coated + Coro Zinc 70 - 100 Micron
- Heavy Duty galvanized steel inner liner, with lateral handles - with 2 Partition for General Waste & Recycled Waste
- 2 Identification colors with SS - Stickers, Blue & Green for Recyclable Waste & General Waste
- Total Capacity - 170 Ltr
- Can be bolted to the ground
- 100% weather proof
- Locking system
- Stainles Steel Ashtray on top (Optional)
- Sample is available for the demo
- Bin can be painted/coated any color, as per your approval

SMART LINE

Above ground waste collection

The Smart Line system can be operated very easily and extremely comfortably with minimal effort due to its modern and urban design. It persuades with its ideal insertion height and size for an even faster and more convenient disposal of waste.

Product Specifications:

- Volum: 2.2 - 4.6m3
- Modular System
- Emptying Hooks: Mushroom, 1-Hook, 2-Hook, 3-Hook

Suitable to Collect:

- Mixed waste
- Organic waste
- Paper & cardboard
- Plastic & plastic bottles
- Glass & aluminium
- Recyclables

SUB VIL

Underground waste collection systems

Sub Vil, our thousand-fold well-tried underground system, offers the option for an environmentally integrated and highly attractive waste management concept where users can dispose of waste 24/7. The system forever eliminates the sight of overflowing containers and raucous waste deposits. This advanced underground concept has proven itself in communities and cities throughout Europe.

Product Specifications:

- Volum: 3.0 - 6.0m3
- Modular System
- Throw-in column: Different models available
- Emptying Hooks: Mushroom, 1-Hook, 2-Hook, 3-Hook

Suitable to Collect:

- Mixed waste
- Paper & cardboard
- Plastic & plastic bottles
- Glass & aluminium
- Recyclables

LIFT O MAT

Lift system for wheelie-bins

The flexible system for tight spaces: The Lift O Mat system is the ideal solution for tight spaces. The already existing 4-wheel containers can be elegantly stored in a hydraulically driven underground lift system and emptied with a conventional waste collection vehicle. Such a Lift O Mat system can be equipped with up to five throw-in columns and bins.

Product Specifications:

- Volum: 1 - 5 pcs. 4 wheel containers (1'100L)
- Throw-in column: Different models available
- Modular System
- Electrical or via truck power operation

Suitable to Collect:

- Mixed waste
- Organic waste
- Paper & cardboard
- Plastic & plastic bottles
- Recyclables

QUADROMAT

Lift system for standard compactors

The Giant in waste collection: A standard compactor up to 20 m3 can be stored underground with our Quandromat system. Thanks to the compression rate and capacity of the compact, collection costs, road traffic and CO2 output can be significantly reduced. This Quandromat lift system is particularly suitable for residential areas, hospitals, public places & every area where massive amount of waste must be collected.

Product Specifications:

- Volum: 10 - 20 m3 Compactor
- Modular System
- Tilt able or non-tilt able walkway platform
- Many extra Functionalities available

Suitable to Collect:

- Mixed waste
- Paper & cardboard
- Plastic

SPEED LIFTER

Fully automatic crane system

The way to maximise your performance: The Speed Lifter lifting system incorporates our uncompromisingly practical engineering to enable fast & economical waste collection management. The result is a fully automated lifting system to collect waste containers fast, efficiently & safely.

Product Specifications:

- Full or Semi-automatic operation
- Reversible Arm
- 360° Turn
- High Payload
- Parking Position on both sides
- Maximisation of efficiency and reduction of total costs per collection trip
- Compatible with all mushroom, 1-Hook and 2-Hook container systems

Suitable to Collect:

- SWL 95-5 with a reach of 4.5 m
- SWL 105-7 with a reach of 7 m
- SWL 105-9 with a reach of 9 m

INTERCARE WASTEMATE 120 - SOLAR WASTE BIN

The WasteMate 120 is the showpiece among smart and sustainable waste bins! The WasteMate 120 is powered completely self-sufficient through a solar panel on top. A built-in press compacts the waste as much as possible, and a sensor and GPS system together ensure efficient waste collection. Monitoring is done remotely by the CleanCityManager platform.

The solid construction of the waste bin makes it highly resistant to damage and vandalism. The throw-in flap can be closed remotely for safety reasons. A duo bin installation is possible, allowing you to combine multiple WasteMates and have waste collected separately.

- Significant reduction in collection costs
- Online monitoring via portal or app, anywhere and anytime
- Reduction of CO2 emissions through efficient waste collection
- Vandal-proof due to robust material
- Insert without touching by means of a foot pedal
- For standard 120 liter wheelie bin

INTERCARE WASTEMATE 200 - SOLAR WASTE BIN

The WasteMate 200 is a smart, compact, and durable waste bin and is powered completely self-sufficiently through a solar panel on top. A built-in press compacts the waste and a sensor and GPS system together ensure efficient waste collection. Monitoring is done remotely by the CleanCityManager platform.

The solid construction of this waste bin makes it highly resistant to damage and vandalism. The throw-in flap can be closed remotely for safety reasons.

- Significant reduction in collection costs
- Online monitoring via portal or app, anywhere and anytime
- Reduction of CO2 emissions through efficient waste collection
- Vandal-proof due to robust material
- Insert without touching by means of a foot pedal
- For standard 200 liter wheelie bin

WASTECARE MANAGEMENT

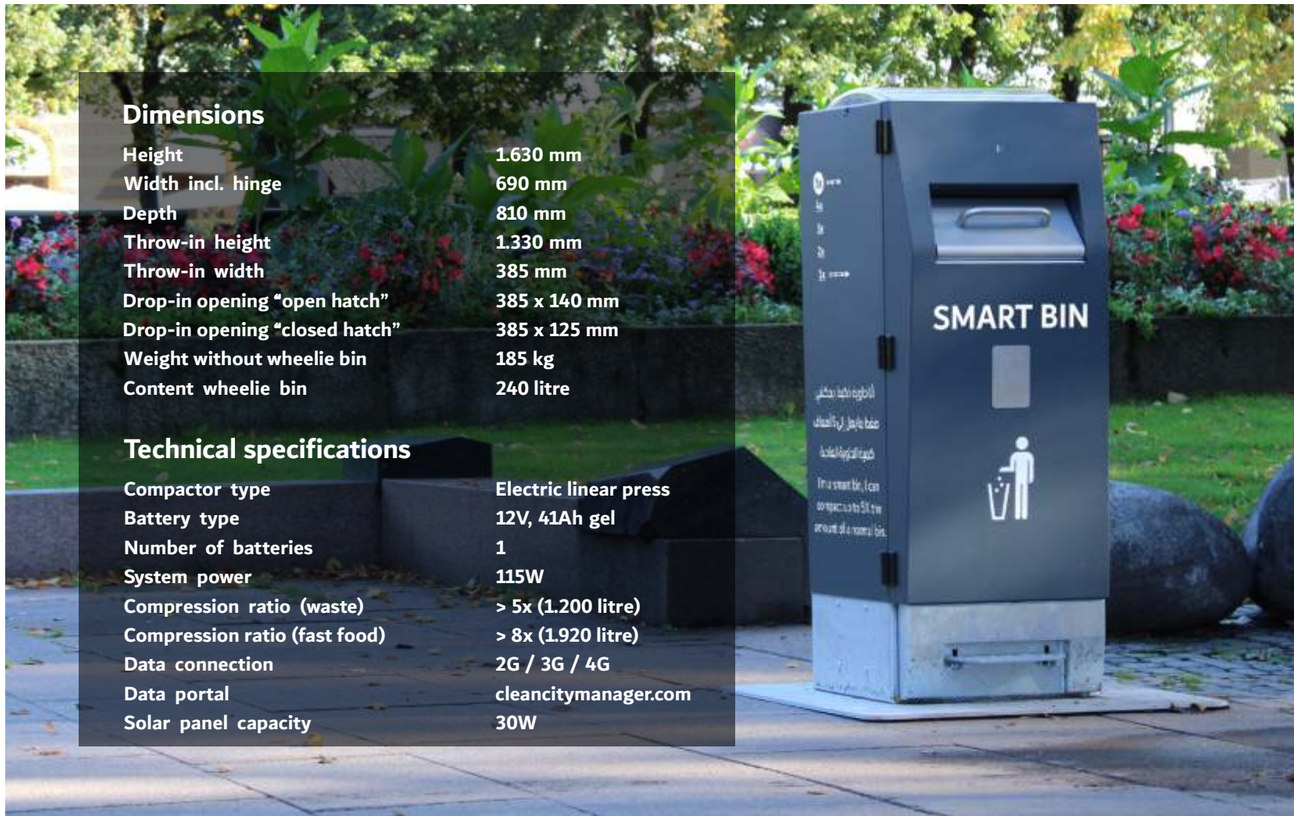

INTERCARE WASTEMATE 240 SOLAR WASTE BIN

The WasteMate 240 is the largest smart and sustainable waste bin and is powered completely self-sufficiently through a solar panel on top. This waste bin is very suitable for installation at busy locations with a peak load in a short time, for example on festival grounds or nearby football stadiums. The waste is compacted 5 to 8 times by the built-in baler. A built-in press compacts the waste as much as possible, and a sensor and GPS system together ensure efficient waste collection. Monitoring is done remotely by the CleanCityManager platform.

The solid construction of this waste bin makes it highly resistant to damage and vandalism. The throw-in flap can be closed remotely for safety reasons.

- Significant reduction in collection costs
- Online monitoring via portal or app, anywhere and anytime
- Reduction of CO2 emissions through efficient waste collection
- Vandal-proof due to robust material
- Insert without touching by means of a foot pedal
- For standard 240 liter wheelie bin

Dimensions

Height	1.630 mm
Width incl. hinge	690 mm
Depth	810 mm
Throw-in height	1.330 mm
Throw-in width	385 mm
Drop-in opening “open hatch”	385 x 140 mm
Drop-in opening “closed hatch”	385 x 125 mm
Weight without wheelie bin	185 kg
Content wheelie bin	240 litre

Technical specifications

Compactor type	Electric linear press
Battery type	12V, 41Ah gel
Number of batteries	1
System power	115W
Compression ratio (waste)	> 5x (1.200 litre)
Compression ratio (fast food)	> 8x (1.920 litre)
Data connection	2G / 3G / 4G
Data portal	cleancitymanager.com
Solar panel capacity	30W

FILMOP INTERNATIONAL

POCKER DUSTPAN

15 L with 4 wheels

FEATURES

- Made of polypropylene copolymer, first quality material: lightweight, shock-proof, resistant to frequent use and low temperatures
- Capacity: 15 L
- Equipped with a rubber blade to ensure the best floor contact and an easy and better waste collection
- The 4 wheels guarantee a better mobility and easy handling during transport and the waste collection operations; during waste collection it is possible indeed to maintain the cover open and move the dustpan very easily avoiding any possible damage.
- Equipped with ergonomic grip for a better and safer grip.

MATERIAL

- Polypropylene copolymer, rubber and chromed steel

SPECIALITY CHEMICALS

Intercare Chemicals boasts a state-of-the-art manufacturing and R&D facility spanning 15,000 sq. ft. With a production capacity of 14,000 metric tons per year, our factory is equipped with advanced technology and staffed by highly qualified office personnel and skilled shop floor workers. As a leading cleaning chemicals manufacturer in UAE, Sharjah, we adhere to global standards and GMP (ISO) guidelines to ensure product quality, confirmed with a Certificate of Assurance (COA) for each batch. We hold ISO 9001 and ISO GMP 22716 – 2007 certifications, reflecting our commitment to superior manufacturing practices.

We also provide:
1. Contract Manufacturing
2. Private Label Manufacturing

- Fabric Care (Fabric Softener Regular, Fabric Softener Concentrated, Sensitive Fabric Softener, Antibacterial Fabric Softener, Liquid Detergent, Kandora Liquid Detergent, Abaya Liquid Detergent)
- Hand Hygiene (Clear, Cream, Gel, Foam and Antibacterial Hand Soap)
- Home Care (Window Cleaner, Solid & Liquid Drain Opener, Bleach, Toilet Bowl Cleaner, Antiseptic Disinfectant, All Purpose Cleaner, Kitchen Cleaner and Floor Cleaners)

CITRUS BURST

BODY CARE 300 ml, 1 & 5 Ltr.

(SHOWER GEL, SHAMPOO & CONDITIONER)

SEA SPA BATH & SHOWER GEL

Clear light green colored liquid cleaning shower with a fresh natural fragrance.
Packing: 300 ml & 5 Ltr.
Code: WHICCH00044

SEA SPA SHAMPOO

Sea Spa Shampoo is fortified with protein Keratin and is mild, nonallergic, & safe for children as well.
Packing: 300 ml & 5 Ltr.
Code: WHICCH00001/ WHICCH00041

APPLE - HAIR & BODY SHAMPOO

Clear liquid cleaning shampoo, made of the perfect blend of green apple extract & essential minerals and proteins.
Packing: 1 & 5 Ltr.
Code: WHICCH00012/ WHICCH00013

FLOORCARE 5Ltr.

SUPER STRIPPER

Highly powered stripper which can remove all types of wax & floor polish coatings from floors.
Packing: 5 Ltr.
Code: FCICCH00047

ACRYLIC FLOOR POLISH

A high solids, metalized dry bright floor polish with long lasting deep shine. (16% solids)
Packing: 5 Ltr.
Code: FCICCH00092

ACRYLIC FLOOR POLISH-GLAZE

High solids, metalized dry bright floor polish with long lasting deep shine. (24% solids)
Packing: 5 Ltr.
Code: FCICCH00095

CARE SPRAY BUFF

A scented spray emulsion, formulated for use with high speed buffing machines.
Packing: 5 Ltr.
Code: FCICCH00127

DETERGENTS 1 & 5 Ltr.

ALL PURPOSE DETERGENT

A neutral all purpose detergent ideal for every washable surfaces.
Packing: 1 & 5 Ltr.
Code: FCICCH00020 / FCICCH00021

LOW FOAM DETERGENT

Low Foam floor cleaner for scrubber dryers & single disc machines.
Packing: 5 Ltr.
Code: FCICCH00128

SANICARE

Highly perfumed detergent for water resistant hard surfaces.
Packing: 5 Ltr.
Code: FCICCH00133

CARPET DETERGENT

A low foam, spray extraction carpet cleaner. Perfumed & designed for cleaning with spray extraction machines.
Packing: 5 Ltr.
Code: FCICCH00101

CARPET SHAMPOO

A concentrated high foam shampoo. Ideal for cleaning all carpets & upholstery and for use in shampooing machines.
Packing: 1 & 5 Ltr.
Code: FCICCH00097 / FCICCH00010

RESTORE STAIN REMOVER

A dry foam carpet shampoo containing spot & stain removing agents. Ideal for carpet shampooing machines.
Packing: 5 Ltr.
Code: FCICCH00103

WINDOW CLEANER

Leaves glass surfaces crystal clear.
Ready to use or dilute for larger projects.

Packing: 5 Ltr. & 750ml
Code: FCICCH00110

SPECIALITY CHEMICALS

DISINFECTANTS 500 ML, 1 & 5 Ltr.

INTERPINE

Excellent general purpose disinfectant which cleans, deodorizes & disinfects kitchen, drains, toilets & public utility areas.
Packing: 1 & 5 Ltr. Code: FCICCH00090/89

ANTISEPTIC DISINFECTANT

A non poisonous & non staining germicide, ideal for personal hygiene, floors and bathrooms.
Packing: 500 ml & 5 Ltr.
Code: CHFCDI00040 / FCICCH00052

PHENOLIC DISINFECTANT

High grade disinfectant based on chloro phenols. Ideal for general cleaning & disinfection of drains, sinks & toilets.
Packing: 5 Ltr. Code: FCICCH00084

LEMON DISINFECTANT

Lemon Disinfectant is a concentrated general purpose disinfectant with added detergent.
Packing: 5 Ltr.
Code: FCICCH00111

STERICARE (SURFACE DISINFECTANT/STERILIZER)

Stericare is a multi-purpose disinfection solution used for eliminating bacteria, viruses, and viral spores.
Packing: 5 Ltr.
Code: FCICCH00111

INDUSTRIAL / INSTITUTIONAL 300 ML & 5 Ltr.

CEMENT SCALE REMOVER

Highly effective, concrete and masonry cleaner. It is a mineral acid-based concentrated preparation with a pungent smell.
Packing: 5 Ltr. - Code: FCICCH00089

ACID CLEANER

A highly effective acid-based cleaner formulated to remove tough dirt and deposits from tiles, ceramics, concrete, and stone surfaces.
Packing: 5 Ltr. - Code: CHFCIP00058

DEGREASER

Mild foam heavy-duty alkaline cleaner mainly for hard surface cleaning to remove the tuff stain of Oil or grease deposits.
Packing: 5 Ltr. - Code: FCICCH00031

DEGREASER HD

Heavy-duty alkaline cleaner for hard surface cleaning including grease and oil. It is a clear colorless liquid that has an appreciable odor.
Packing: 5 Ltr. - Code: FCICCA00152

CAR SHAMPOO

Highly concentrated neutral detergent ideal for both manual & automatic car wash. It is a viscous, clear, green color, high foaming liquid with a pleasant refreshing odor.
Packing: 5 Ltr. - Code: FCICCH00010

KITCHEN OVEN & GRILL CLEANER

It removes baked-on grease and carbon deposits from stainless steel frying pans, range hoods, grills, ovens, and other kitchen equipment.
Packing: 5 Ltr.
Code: CHFCFC00029

SANI CLEAN DRIP SYSTEM

An effective, highly perfumed urinal Cleaner & Deodorizer specially formulated with disinfectant and nonionic surfactant.
Packing: 300 ml
Code: CHFCSC00135

HAND WASH & SANITIZERS

60, 300, 800 ML, 1 & 5 Ltr.

APPLE FRESH

Apple Fresh Hand Wash gently cleanses hands and leaves a crisp, fruity apple scent that lingers pleasantly. It is ideal for daily use.
Packing: 5 Ltr.
Code: CHFCSC00143

MILDA CLEAR

Milda Clear Liquid Hand Soap gently cleanses hands and leaves you feeling refreshed with a pleasant long-lasting fragrance.
Packing: 5 Ltr.
Code: WHICCH00081

WHITE PEARL

White Pearl Hand Soap is pearlized, perfumed hand soap. It is a medium viscosity, opaque white liquid with a lavender odor.
Packing: 1 & 5 Ltr.
Code: WHICCH00004/WHICCH00007

LAVENDER HAND SOAP

Lavender Hand wash is a rich lathering liquid hand soap with moisturizers and fresh natural fragrance.
Packing: 5 Ltr.
Code: WHICCH00005

SEA SPA

Sea Spa Liquid Hand Soap is a rich lathering liquid hand soap with moisturizers and fresh natural fragrance.
Packing: 300 ml & 5 Ltr.
Code: CHFCSC00129/WHICCH00042

ANTIBACTERIAL

Antibacterial liquid hand soap is a pearlized medicated cream hand soap. It is a viscous yellow liquid with a chloroxylenol – odor.
Packing: 1 & 5 Ltr.
Code: FCICCH00071 / FCICCH00072

PINK PEARL

Pink Pearl Liquid Hand Soap is pearlized, perfumed hand soap. It is a medium viscosity, opaque pink liquid with a floral odor.
Packing: 1 & 5 Ltr.
Code: WHICCH00009/WHICCH00005

FRESH FOAM

Suitable for high traffic areas with high hygiene standards, such as medical facilities, public washrooms and food preparation areas.
Packing: 5 Ltr.
Code: CHFCSC00139

HEAVY DUTY

Heavy Duty Liquid Hand Soap is a pleasantly perfumed hand cleaning soap specially formulated to remove heavy soilage from hands.
Packing: 5 Ltr.
Code: FCICCH00074

NEUTRAL/CITRUS SANITIZER

Hand Sanitizer is effective at caring hands and eliminating most of the common germs and bacteria.
Packing: 5 Ltr.
Code: WHICCH00145/44

LAVENDER - SANITIZER

Waterless hand sanitizer gel that kills germs instantly without water (rinse-free) and leaves a fresh scent.
Packing: 60, 300, 800 ml, 1 & 5 Ltr.
Code: FCICCH00076

MYSTIQUE

Mystique Hand wash is a rich lathering liquid hand soap with moisturizers and fresh natural fragrance.
Packaging: 500 ml
Code: WSFCSC00145

INSTITUTIONAL & LAUNDRY

The Institutional and Laundry Chemicals Division deals with high-quality commercial cleaning products such as Laundry, kitchen, and Housekeeping chemicals, meeting the diverse needs of the hospitality industry, food manufacturing industry and healthcare industry. Manufactured by Intercare, at our state-of-the-art facilities in Egypt and Sharjah, these high-quality products, categorized as five segments - SAFE (Laundry), Crystal (Kitchen), SPEED (House Keeping), WAY (Floor Care) and TOUCH & Care (Personal care), provide uniquely tailored solutions in a cost-effective way to the HORECA sector in specific. With a rich expertise in the formulation and manufacturing of these chemicals for both in-house brands and leading multinational brands under contract manufacturing, we provide efficient and sustainable solutions to our specific customer needs. Our dedicated team of experts adheres to stringent quality control measures, assuring the efficacy and reliability of our products. With ISO and GMP certifications, our Egypt and UAE factories adhere to global standards, guaranteeing the development of innovative products.

The division offers a complete solution by assisting the customers as a consultant to address their operational challenges. The services include supply and installation of dosing equipments, chemicals and round the clock technical and after sales support. This comprehensive approach helps our customers with measurable insights on reduced operational costs, sustainable solutions, and an elevated guest experience.

LAUNDRY CHEMICALS

LAUNDRY CHEMICALS

SAFE BOOST

Laundry Liquid
Alkali Builder / Booster

Recommended use:

- Improves soil removal, especially food and fat stains
- Use in medium and hard water
- Recommended for all types of linen

Packing: Jerkin 1 x 20 L

Key Features

Safe Boost is based on a balanced blend of alkalines, water hardness sequestering agents and anti-greying agents. The building system ensures low water hardness ion concentration and consequently prevents precipitation of detergent components and greying of fabric. It prepares natural fibers for easy removal of dirt and enhanced wash performance.

SAFE ALKAZOL

Laundry Powder
Alkali Builder / Booster

Recommended use:

- Improves soil removal on food and fat stains
- Stabilisation of soil particles in wash liquor
- Prevents graying

Packing: Bag 1 x 20 KG

Key Features

Safe Alkazol is an effective alkalinity builder/ booster, which is based on a balanced blend of alkaline salts and water hardness sequestering agents. When combined with a main wash detergent, Safe Alkazol improves soil removal on food (protein) and fat stains (e.g. table linen and kitchen linen).

SAFE ESSENTIAL

Liquid Main
Wash Detergent

Recommended use:

- Excellent performance on fatty and oily soil
- High detergency capability
- Improves fabric whiteness

Packing: Jerkin 1 x 20 L

Key Features

Safe Essential is an effective detergent based on a blend of nonionic surfactants, anionics and soap with excellent performance on fatty/oily soil. Once removed from fabric, fat and oil are effectively dispersed by Safe Essential, thus preventing redeposition. It contains an optical brightener for application at all temperatures.

SAFE INTENSE

Heavy Duty Main Wash
Liquid Detergent

Recommended use:

- Excellent performance on a wide range of stains and types of soil
- Prevents graying of linen stabilisation of soil particles in the wash liquor

Packing: Jerkin 1 x 20 L

Key Features

Safe Intense is based on an effective blend of low foaming nonionics, water hardness sequestrants, anti-graying and anticorrosion agents. The phosphate based building system ensures low water hardness ion concentration and consequently prevents precipitation of detergent components.

SAFE ECHOFORTE

High Detergency Powder
Mainwash Detergent

Recommended use:

- Excellent performance on heavily soiled
- High detergency capability -
- Avoids yellowing of fabric

Packing: Bag 1 x 20 KG

Key Features

high alkaline detergent based on a blend of soap, nonionic surfactants, water hardness sequestrants, anti-graying & anti-yellowing agents and silicates. The phosphate based building system ensures low water hardness ion concentration and consequently prevents precipitation of detergent components.

SAFE COMPLETE

All in One Enzymatic
Laundry Powder Detergent

Recommended use:

- Very effective on proteinaceous soil
- Prevent re-deposition
- No need for additional bleach
- Improves fabric whiteness

Packing: Bag 1 x 20 KG

Key Features

Strong enzymatic powder detergent, based on an effective mixture of surfactants, water hardness sequestrants, anti-graying & anti-corrosion agents, alkaline salts & medium temp. oxygen bleach. It is very effective one shot main wash detergent on oil, blood, and food stains that may be used for cleaning fabric from hospitals, hotel linen, restaurant linen work wear.

SAFE OILGO

Laundry Surfactant
Booster / Emulsifier

Recommended use:

- Excellent performance on fatty and oily soil
- Improves fabric whiteness
- Optimal use of washer mechanical action

Packing: Jerkin 1 x 20 L

Key Features

Safe Oilgo is an effective booster based on a blend of nonionic surfactants and an optical brightener with excellent performance on fatty/oily soil. Once removed from fabric, fat and oil are effectively dispersed by Safe Oilgo, thus preventing redeposition.

SAFE OILAWAY

Highly Concentrated
Emulsifier

Recommended use:

- Excellent performance on fatty and oily soil
- Improves fabric whiteness
- Optimal use of washer mechanical action

Packing: Jerkin 1 x 20 L

Key Features

Safe Oilaway is an effective booster based on a blend of nonionic surfactants and an optical brightener with excellent performance on fatty/oily soil. Once removed from fabric, fat and oil are effectively dispersed by Safe Oilaway, thus preventing redeposition.

SAFE ACTIFOS

Laundry Powder For
Heavy Stain Treatment

Recommended use:

- Excellent dispersion/suspensio n agent for insoluble soils
- Brighten colors
- Remove stubborn stains

Packing: Bag 1 x 10 KG

Key Features

Safe Actifos has high sequestration power enables extensive application in commercial laundries. It improves the removal of various stain classes and levels (particulates, blood, grass, beverages), together with enhanced whiteness maintenance.

SAFE OXYGEN

Liquid Oxygen
Bleach

Recommended use:

- No need for anti-bleach
- Minimum fabric damage
- Energy saving

Packing: Jerkin 1 x 20 L

Key Features

Safe Oxygen is an effective high temperature bleach system based on hydrogen peroxide. It can be applied on all types of fabric (except wool and nylon), including coloured articles, at 70 - 90°C. Safe Oxygen should not be applied on bloodstains.

SAFE COLOR

Powder Oxygen
Bleach

Recommended use:

- No need for anti-bleach
- Minimum fabric damage
- Energy saving

Packing: Bag 1 x 20 KG

Key Features

Safe Color is a perfect powder laundry oxygen bleach based on percarbonate, alkaline salts and bleach stabilising agents. The presence of bleach stabilising agents and usage according to user instructions will result in minimal fabric damage and colour fading. It can be applied on all types of fabric (except wool and nylon)

SAFE BLEACH

Liquid Chlorine
Bleach

Recommended use:

- Excellent bleaching power for all types of white fabric
- Perfect hygiene
- Low temperature bleach
- Cost effective

Packing: Jerkin 1 x 20 L

Key Features

Safe Bleach is an effective low temperature bleach system based on hypochlorite, alkali and bleach stabilising agents.

It can be applied on all types of white fabrics and articles with chlorine compatible dyes such as hospital theatre linen. In order to obtain good bleach performance and at the same time causing minimal fabric damage, the temperature of the washsolution should be kept below 40°C.

SAFE WHITE

Powder Chlorine
Bleach

Recommended use:

- Excellent bleaching power for all types of white fabric
- Perfect hygiene
- Low temperature bleach
- Cost effective

Packing: Bucket 1 x 10KG

Key Features

Safe White is an effective chlorine bleach based on chlorinated isocyanurates, alkaline salts and stabilizing agents to be used at medium temperature for bleaching and disinfection. It provides good hygiene, provided the temperature and pH conditions and contact time are right.

SAFE SOUR

Laundry
Sour

Recommended use:

- Effective neutralisation of residual alkalinity in rinse water & on fabric
- Prevents fabric damage
- Prevents yellowing of fabric

Packing: Jerkin 1 x 20 L

Key Features

Safe Sour is a liquid laundry sour based on inorganic acids that are applied to neutralise alkali present in rinse water and on fabric, thus preventing yellowing (or galling) of fabric. The main neutralizing ingredient is phosphoric acid, which is inorganic & an excellent environmental profile.

SAFE RUST

Liquid Rust
Removing Sour

Recommended use:

- Effective rust removal and alkalinity neutralizer
- Cost Effective
- Prevent yellowing of fabric

Packing: Jerkin 1 x 20 L

Key Features

Safe Rust is a liquid alkalinity neutraliser based on an organic acid. Organic acids are efficient neutralising agents for alkali present in rinse water and on fabric, thus preventing yellowing of fabric. Safe Rust can be used for all types of fabric.

SAFE IRON BLASTER

Powder Rust
Removing Sour

Recommended use:

- Effective rust and ink stains removal and alkalinity neutralizer
- Cost Effective
- Prevent yellowing of fabric

Packing: Bucket 1 x 10KG

Key Features

Safe Iron Blaster is a powder alkalinity neutraliser based on oxalic acid which effectively removes rust and iron stains. It can help to renew the brightness of yellowing whites and help to remove staining from colored clothing too. Safe Iron Blaster can be used for all types of fabrics.

SAFE NEUTRA SOFT

Neutraliser For Alkalinity With
Softening Properties

Recommended use:

- Excellent biodegradability
- Delivers a pleasant residual smell
- Prevents yellowing of fabric

Packing: Jerkin 1 x 20 L

Key Features

Safe Neutra Soft is a liquid alkalinity neutraliser with softening properties, based on organic acids and quaternary ammonium salts. It has organic acids which are efficient neutralising agents for alkali present in rinse water and on fabric, thus preventing yellowing of fabric.

SAFE PRIME

Wet & Dry Perfumed Concentrated
Liquid Fabric Softner

Recommended use:

- Excellent softening power
- Delivers a pleasant wet & Dry smell
- Prevent build up of electrostatic force on fabric

Packing: Jerkin 1 x 20 L

Key Features

Concentrated fabric conditioner based on biodegradable cationics, quaternary ammonium salts. In the wash solution, these positively charged cationics, adsorb to the negatively charged surface of fabrics. Once adsorbed onto fabric the cationic has a lubricating effect. During the drying process, this prevents interlocking of individual fibres & build-up of static electricity.

INSTITUTIONAL & LAUNDRY

KITCHEN CHEMICALS

KITCHEN CHEMICALS

CRYSTAL FORTE
Liquid Machine Ware Washing Detergent

Recommended use:
- Powerful on all type of food stain
- Prevents scaling of the dish wash machine
- Effective at medium to hard water conditions

Packing: Jerkin 1 x 20 L
Carton 2 x 5 L

Key Features
Crystal Forte is a powerful liquid alkaline detergent which will provide excellent removal of food and protein stains from china and silver ware. It's contains a powerful scale control agents that prevents scaling in medium to hard water conditions.

CRYSTAL BRIGHT
Powder Machine Ware Washing Detergent

Recommended use:
- Powerful on all type of food stain
- Prevents scaling of the dish wash machine
- Effective at medium to hard water conditions

Packing: Bucket 1 x 3Kg

Key Features
Crystal Bright is a powerful powder alkaline detergent contains a blend of highly alkaline substances and nonionic surfactants, ensuring excellent removal of food and protein stains from china and silverware. Additionally, it includes additives to manage and control scale build-up. Crystal Bright is suitable for small under-counter & front load multi cycle machines

CRYSTAL CLEAR
Liquid Machine Ware Washing Rinse Aid

Recommended use:
- Quick drying
- Streak and spot-free
- Low foaming action

Packing: Jerkin 1 x 20 L
Carton 2 x 5 L

Key Features
Crystal Clear is a standard neutral rinse aid. It has been specially formulated for use in a wide range of warewashing machines. Crystal Clear incorporates a unique combination of non-ionic surfactants designed to swiftly remove water particles, ensuring glass, china, and silverware are spotlessly dry and leaving all cleaned surfaces streak-free.

CRYSTAL GAIN
Manual Dish Washing Liquid Detergent

Recommended use:
- Powerful oil and dried-on food residues cleaning
- Streak and spot free
- Easy rinsing

Packing: Carton 4 x 5L

Key Features
Crystal Gain is a neutral liquid detergent designed to clean dishes, pot & pan, glass and all kitchen utensils manually. It contains a balanced mixture of anionic surfactants that effectively tackles greasy, dried-on food, while ensuring easy, streak-free rinsing.

CRYSTAL DE-LIME
De-scaler For Periodical Use

Recommended use:
- Effective lime scale remover
- Fast action
- Safe in use due to non corrosive formulation

Packing: Carton 2 x 5L

Key Features
Crystal De-Lime is a liquid cleaning solution that combines inorganic acids and nonionic surfactants to effectively remove all forms of limescale from a wide range of kitchen equipment and utensils, including dishwashing machines, bain maries, boilers, steamers, tea and coffee urns, among others.

CRYSTAL DIP
Powder For Soaking & Removing Stains For Tableware

Recommended use:
- Removes stubborn stains
- Easy to use
- Effectively removes burnt-on food and starch

Packing: Bucket 1 x 10Kg

Key Features
Crystal Dip is an alkaline powder formulated for the effective presoaking & destaining of heavily soiled surfaces. It incorporates a combination of scale inhibitors and alkali to remove dried-on food residue from tableware. This formulation also includes active oxygen, ensuring the efficient elimination of tea, coffee, & fruit stains.

CRYSTAL DEGREASER
Liquid Heavy Duty Degreaser Aluminum Safe

Recommended use:
- Powerful on all type of food stains
- Oil Stain remover
- Effective at medium to hard water conditions

Packing: Carton 2 x 5L

Key Features
Crystal Degreaser is an alkaline liquid detergent specifically developed for the manual cleaning of heavily soiled kitchen surfaces, including deep fat fryers, floors, equipment, cooker hoods, and cooker tops. This product features an ideal combination of non-ionic and anionic surfactants to ensure effective surface wetting and cleaning performance.

CRYSTAL GRILL
Oven and Grill Cleaner

Recommended use:
- Powerful alkali action removes all type of food stain
- Ideal cleaner for ovens, grills and salamanders
- Used diluted for cleaning of fryers

Packing: Carton 2 x 5L

Key Features
Crystal Grill special blend of alkali, surfactants and solvents removes even heavily carbonised soil. When diluted with water, the product is also suitable for soak cleaning of fryers. It can be sprayed with foam sprayer to improve reach and reduce mist.

CRYSTAL SURFACE
Multi Surface Cleaner

Recommended use:
- Powerful on all type of organic stain
- Effective in all water conditions
- For most kitchen surfaces

Packing: Carton 2 x 5L

Key Features
Crystal Surfaces is a mild alkaline liquid detergent suitable for manual cleaning of all surfaces in the kitchen. It offers an optimal combination of anionic and nonionic surfactants along with alkali, making it highly effective in removing grease and dried-on food residues. It is suitable for use for all water conditions and ensures consistent cleaning performance.

KITCHEN CHEMICALS

CRYSTAL DRAIN
Highly Alkaline Detergent For Heavily Soiled & Drain Opener

Recommended use:
- Effective in unblocking drains
- Powerful on all type of food stain
- Effective at medium to hard water conditions

Packing: Bucket 1 x 10Kg

Key Features
Highly active, low-foaming powdered detergent, primarily caustic-based, specially formulated for effectively unblocking drains. well-suited for cleaning extremely soiled surfaces in food processing areas. it particularly effective for machine removal of accumulated starch and proteins on porcelain or stainless steel surfaces.

CRYSTAL SANIDET
Liquid Detergent Disinfectant

Recommended use:
- Cleans & disinfect in one step
- Long period protection
- For most kitchen surfaces

Packing: Carton 2 x 5 L

Key Features
Crystal Sanidet is a concentrated liquid detergent disinfectant developed to clean and disinfect all surfaces in a single step. This product is suitable for use on all surfaces within food premises. Its unique combination of Quaternary Ammonium Compounds, sequestrant, and a buffer system makes it highly effective against wide spectrum of microorganisms, in all water conditions.

CRYSTAL DECHO
Powder Detergent Sanitizer

Recommended use:
- Cleans & disinfect in one step
- Long period protection
- For all kitchen surfaces

Packing: Bucket 1 x 10Kg

Key Features
Crystal Decho is a powdered product designed for use on all hard surfaces, equipment, and utensils requiring disinfection. This product contains active chlorine, ensuring its effectiveness against a broad spectrum of microorganisms. Additionally, it includes a scale control agent, making it suitable for use in all water conditions.

CRYSTAL QUAT
Liquid Disinfectant For All Surfaces - Rinse Free

Recommended use:
- Effective against a wide spectrum of micro-organisms
- Long period protection
- Safe for use on all surfaces, including aluminium

Packing: Carton 2 x 5 L

Key Features
Crystal Quat is a concentrated liquid disinfectant formulated for use on all hard surfaces including food contact surfaces. The product is an optimal blend of Quaternary Ammonium Compound, wetting agent and scale inhibitor, which makes it very effective as disinfectant against a wide range of micro-organisms, in all water conditions.

CRYSTAL ALCOSAN
Alcohol Based Disinfectant For All Surfaces - Rinse Free

Recommended use:
- Effective broad spectrum activity
- Disinfects after minor product spills
- Suitable for moisture, sensitive areas

Packing: Carton 2 x 5 L

Key Features
Crystal Alcosan is a safe product for use on food contact surfaces. It evaporates quickly, leaving behind minimal to no residue. This disinfectant is recommended for use in high-risk areas where it can effectively clean and disinfect conveyors, fillers, and other equipment, especially after small product spillages. Additionally, it can be applied during mid-shift breaks to help maintain a high level of hygiene until production resumes.

CRYSTAL SANIGAIN
Manual Dishwashing Liquid Detergent Sanitizer

Recommended use:
- Reduce risk of cross contamination
- Powerful oil and dried-on food residues cleaning
- Streak and spot free

Packing: Jerkin 1 x 20 L

Key Features
Crystal Sanigain is a neutral liquid detergent sanitizer designed to clean and reduce risk of cross contamination for dishes, pot & pan, glass and all kitchen utensils manually. Crystal Sanigain contains a bactericide that reduces the risk of cross contamination.

CRYSTAL STAINLESS
Stainless Steel Polish

Recommended use:
- Removes water spots and finger marks
- Keeps surfaces looking good
- Streak and spot free

Packing: Carton 6 x 750 ml

Key Features
Crystal Stainless is a specially formulated polish designed for the maintenance of stainless steel surfaces that are not used in the food preparation. This includes applications such as refrigerator/freezer doors, trolleys, dishwashing machines, etc. It contains a unique blend of oils that forms a protective film, ensuring a long lasting glossy finish on the treated surfaces.

CRYSTAL SILVER
Silver Cleaner and Polish

Recommended use:
- Fast acting
- Easy to use
- Soft odour

Packing: Carton 2 x 5 L

Key Features
Crystal Silver is specially developed for detarnishing of silver and silverplate, including cutlery, serving dishes, table decorations etc. This product combines an effective blend of acid, reducing agents, and surfactants to ensure a rapid and efficient detarnishing for silver and silverplated materials in less than a minute.

INSTITUTIONAL & LAUNDRY

HOUSE KEEPING CHEMICALS

Speed TOILET S1
Toilet Bowl Cleaner

Recommended use:
- Effectively removes stains and deposits from toilet bowls and urinals
- Appropriate for daily use
- Fresh Fragrance

Packing: Carton 6 x 750ml

pH<3

Key Features
Speed Toilet S1 formula combines organic acids and a thickening agent to ensure the ideal viscosity for excellent adhesion. Its angled neck squeezable bottle allows for fast and easy application, enabling extended contact time on vertical and sloped surfaces to effectively remove stains and deposits from toilet bowls and urinals, leaving behind a pleasant and fresh fragrance.

Speed TOILET S1 CONC.
Concentrated Toilet Bowl Cleaner

Recommended use:
- Effectively removes stains and deposits from toilet bowls and urinals
- Appropriate for daily use
- Fresh Fragrance

Packing: Carton 2 x 5L

pH<2

Key Features
Speed Toilet S1 Conc. formula combines organic acids and a thickening agent to ensure the ideal viscosity for excellent adhesion. Its concentrated formula offers a cost-effective and efficient solution enabling extended contact time on vertical and sloped surfaces to effectively remove stains and deposits from toilet bowls and urinals, leaving behind a pleasant and fresh fragrance.

Speed FLUSH S6
Toilet Renovator

Recommended use:
- Highly effective
- Fast acting
- Ideal viscosity for excellent adhesion
- Fresh Fragrance

Packing: Carton 6 x 750ml

pH<2

Key Features
Speed Flush S6 is developed from thickened hydrochloric acid-based formulation that works effectively and quickly to remove even the toughest lime scale, stains, and residues. Its ideal viscosity and extended contact time on vertical surfaces ensure optimum cleaning efficiency, making it suitable for use on intact porcelain and glazed sanitary installations. Easy application leaving fresh light fragrance.

Speed MULTI S2
Hygienic Multi-Surface Cleaner

Recommended use:
- Hygienic clean
- Removes oily & water soluble residues
- Appropriate for daily use
- Fresh Fragrance

Packing: Carton 6 x 750ml

pH11.5

Key Features
Speed Multi S2 is formulated for the hygienic cleaning of hard water-resistant surfaces, leaving them hygienically clean. It effectively and gently removes oily and water-soluble residues, leaving behind a pleasant and fresh fragrance.

Speed MULTI S2 CONC.
Concentrated Hygienic Multi-Surface Cleaner

Recommended use:
- Hygienic clean
- Removes oily and water
- soluble residues
- Fresh Fragrance

Packing: Carton 2 x 5L

pH10.5

Key Features
Speed Multi S2 Conc. is formulated for the hygienic cleaning of hard water-resistant surfaces, leaving them hygienically clean. Its concentrated formula offers a cost-effective and efficient solution for effectively and gently removes oily and water-soluble residues, leaving behind a pleasant and fresh fragrance.

Speed GLASS S3
Glass & Mirror Cleaner

Recommended use:
- Easy spray-on, wipe-off action
- Dries quickly without streaking
- Rapidly removes oily soils and finger-marks

Packing: Carton 6 x 750ml

pH8

Key Features
Speed Glass S3 is suitable for a wide range of glass surfaces, including windows, mirrors, glass tabletops, glass cabinets and even telephones. Its fast-drying formula developed to leave your glass surfaces streak-free with a pleasant and fresh fragrance.

Speed GLASS S3 CONC.
Concentrated Glass & Mirror Cleaner

Recommended use:
- Easy spray-on, wipe-off action
- Dries quickly without streaking
- Rapidly removes oily soils and finger-marks

Packing: Carton 2 x 5L

pH7.5

Key Features
Speed Glass S3 Conc. is suitable for a wide range of glass surfaces, including windows, mirrors, glass tabletops, glass cabinets and even telephones. Its concentrated formula offers a cost-effective and fast-drying formula to leave your glass surfaces streak-free with a pleasant and fresh fragrance.

Speed FURNITURE S4
Furniture Polish

Recommended use:
- Easy spray-on, wipe-off action
- Dries quickly without streaking
- Cleans, shines and protects in one step

Packing: Carton 6 x 750ml

pH7.5

Key Features
Speed Furniture S4 is a premium wood and furniture polish enriched with a premium blend of waxes and mineral oils, ensuring quick-drying and easy buffing to a high gloss finish on both natural and artificial wood surfaces while leaving a pleasant and fresh fragrance.

Speed FRESH S5
Air Freshener

Recommended use:
- Leaves a long lasting scent
- Freshens & deodorises
- Neutralises malodour, enhancing the effect of the perfume

Packing: Carton 6 x 750ml

pH7.5

Key Features
Speed Fresh S5 is a non-aerosol spray liquid air freshener designed to not only mask unpleasant odors but also neutralize them effectively, creating a pleasant and inviting atmosphere.

HOUSE KEEPING CHEMICALS

Speed FRESH S5 CONC.
Concentrated Air Freshener

Recommended use:
- Leaves a long lasting scent
- Freshens & deodorises
- Neutralises malodour, enhancing the effect of the perfume

Packing: Carton 2 x 5L

pH7

Key Features
Speed Fresh S5 Conc. is a concentrated spray liquid air freshener that provides a cost-effective solution for effectively masking and neutralizing unpleasant odors, creating a pleasant and inviting atmosphere.

Speed SCOURING S7
Scouring Cream

Recommended use:
- Highly effective
- Fast acting
- Non-scratch formulation
- Ideal viscosity for excellent adhesion

Packing: Carton 6 x 750ml

pH10

Key Features
Speed Scouring S7 is a non-scratch formulation that ensures the quick and easy removal of stubborn soils and stains from various surfaces, including stainless steel, chrome fixtures, enamel, glazed ceramic tiles, and hard-plastic baths. Its ideal viscosity guarantees excellent adhesion and provides thorough rinsability making it highly effective and fast-acting while leaving a fresh light fragrance.

Speed KETTLE S8
Kettle & Shower Heads De-scaller

Recommended use:
- Effective lime scale remover
- Fast action
- Cost effective

Packing: Carton 6 x 750ml

pH<2

Key Features
Speed Kettle S8 is a highly effective acid based descaler for kettles, kitchen equipment, shower heads and washroom surfaces. it removes limescale without the need for scrubbing and help to extend the life of your appliances and prevent limescale deposits from affecting the taste of your water.

Speed HYGIENIC BREEZE
Cleaner Disinfectant Deodorizer

Recommended use:
- Fast acting fast drying
- Long lasting deodorizing effect
- Fast action

Packing: Carton 2 x 5L

pH7

Key Features
Speed Hygienic Breeze is a pH-neutral cleaner disinfectant that offers a streak-free, fast-acting cleaning experience on a wide range of water-resistant surfaces, including ceramic tile, synthetic materials, porcelain, and enamel, with the added benefit of a high-perfume content for a long-lasting, fresh effect.

PERSONAL CARE CHEMICALS

TOUCH SOFT
Mild Liquid Hand Wash

Recommended use:
- Produces a smooth lather
- Excellent cleaning performance
- Fresh fragrance

Packing: Carton 2 x 5L
Carton 12x500ml

pH5.5

Key Features
Touch Soft is a mild liquid hand wash that produces a smooth lather, effectively cleansing hands with a fresh and pleasant fragrance, developed with hand cleansers and skin care additives to maintain hand health after frequent use making it ideal for use at restaurants, schools, offices and in public areas.

TOUCH APPLE
Economical Hand Wash

Recommended use:
- Excellent cleaning performance
- Produces a smooth lather
- Fruity fragrance

Packing: Carton 4 x 5L

pH5.5

Key Features
Touch Apple is a cost effective, general hand wash that produces a smooth lather, effectively cleansing hands with a fresh fruity fragrance, making it ideal for use at restaurants, schools, offices and in public areas.

INSTITUTIONAL & LAUNDRY

PERSONAL CARE CHEMICALS

TOUCH FOAM
Foam
Hand Wash

Recommended use:
- Excellent cleaning performance
- Produces a smooth lather
- Fresh fragrance

Packing: Carton 2 x 5L

Key Features
Touch Foam is a luxurious foam hand wash that generates a smooth lather for even application and easy rinsing. It effectively cleans hands with a fresh fragrance and is enriched with hand cleansers and skin care additives to preserve hand health, even with frequent use. This cost-effective solution is ideal for various settings, including restaurants, schools, offices, and public areas.

TOUCH BOTANIC H&B
Shampoo and
Body Wash

Recommended use:
- Produces a smooth lather
- Suitable for frequent body & hair washing
- Fresh fragrance

Packing: Carton 2 x 5L
Carton 12x500ml

Key Features
Touch Botanic Shampoo & Body Wash is a 2-in-1 product suitable for frequent hair and body washing, providing excellent cleaning performance. It contains a gentle blend of ingredients that prevent tangles in the hair, features skinnourishing moisturisers and offers a mildly scented perfume for a refreshing experience.

TOUCH BOTANIC H&F
Mild Hand
& Face Wash

Recommended use:
- Produces a smooth lather
- Mild on skin
- Fresh fragrance

Packing: Carton 2 x 5L

Key Features
Touch Botanic H&F is a gentle liquid hand and face wash that creates a smooth lather. It efficiently clean hands and face, leaving a fresh fragrance. It contains hand cleansers and skin care additives to maintain skin health, even with frequent use.

TOUCH HANDBAC
Odorless Antibacterial
Hand Wash

Recommended use:
- Excellent cleaning performance
- Mild on hands
- Perfume free

Packing: Carton 2 x 5L

Key Features
Touch Handbac combines hand cleaner and antibacterial agents to effectively clean and sanitize hands in a single step. Its mild formula is suitable for frequent hand washing ensuring hands become hygienically clean. It is perfume-free, thus eliminating the risk of tainting foods and making it suitable for use in the food processing area.

care SANI - SPRAY
Alcohol Hand
Sanitizer Liquid

Recommended use:
- Very effective disinfectant
- Fragrance free
- Prevent skin irritation and dryness

Packing: Carton 2 x 5L

Key Features
Care Sani - Spray is a highly effective hand disinfectant, containing isopropyl alcohol that is proven to be highly effective against a wide range of skin micro-organisms, including bacteria and fungi, while also being enriched with moisturizers to prevent skin irritation and dryness and it is perfume-free for safe use in food processing areas.

care SANI-GEL
Ethyl Alcohol
Hand Sanitizer Gel

Recommended use:
- Very effective disinfectant
- Fragrance free
- Prevent skin irritation and dryness

Packing: Carton 2 x 5L

Key Features
Care Sani-Gel is a highly effective hand disinfectant, containing ethylalcohol that is proven to be highly effective against a wide range of skin micro-organisms including bacteria and fungi. Also enriched with moisturizers to prevent skin irritation and dryness. It is perfume-free for safe use in food processing areas.

FLOOR CARE CHEMICALS

WAY EXTRACT
Cleans and re-fresh in one step

Recommended use:
- Excellent de-stain capability
- Safe to use on any carpet
- Deep interim cleaning
- Cleans and re-fresh in one step

Packing: Carton 2 x 5 L

Key Features
Way Extract provides outstanding cleaning performance with its special combination of wetting and emulsifying ingredients, designed for use with Injection-Extraction machines, making it safe for use on various carpet types, including wool, and effectively neutralizing unpleasant odors to leave a refreshed and pleasantly scented environment.

WAY FOAM
Carpet Shampoo

Recommended use:
- Excellent de-stain capability
- Safe to use on any carpet types including wool
- Deep interim cleaning

Packing: Carton 2 x 5 L

Key Features
Way Shampoo includes high foaming surfactants to produce a dry foam for any carpet shampoo methods, ensuring excellent cleaning performance and reducing re-soiling of carpets, making it safe for use on various carpet types, including wool, easily removable residues by vacuuming and effectively neutralizing unpleasant odors to leave a refreshed and pleasantly scented environment.

WAY BEST
Daily Floor Cleaner Maintainer

Recommended use:
- Cleans and maintains without film build-up
- Creates a slip-resistant surface
- Deep interim cleaning

Packing: Carton 2 x 5 L

Key Features
Way Best is a daily floor cleaner and maintainer ensuring clean and well maintained floors without film build-up. Its blend of nonionic surfactants and detergents facilitates the wet mopping while creating a slip resistant and dirt repellent floor leaving a pleasant scent for a fresh environment.

WAY AUTO BEST
Daily Auto Scrubber Floor
Cleaner Maintainer

Recommended use:
- Cleans and maintains without film build-up
- Creates a slip-resistant surface
- Deep interim cleaning

Packing: Carton 2 x 5 L

Key Features
Way Auto Best is a daily floor cleaner and maintainer developed for a clean and well maintained floors without film buildup. Its blend of nonionic surfactants and detergents ensures excellent cleaning results while creating a slip resistant and dirt repellent floor. It's suitable for use with scrubber-driers, single disc machines while leaving a pleasant scent for a fresh environment.

WAY FORCE
Heavy Duty Floor Cleaner

Recommended use:
- Powerful cleaner for tough soils and stains
- Cleans rubber marks
- Inhibited formulation for use on soft metals

Packing: Carton 2 x 5 L

Key Features
Way Force is a heavy-duty floor cleaner formulated with silicates, organic sequestering agents, and a blend of surfactants and wetting agents to effectively removes stubborn soils and rubber marks. from floors. The presence of silicates also aids in preventing corrosion of soft metals, such as aluminum. Always remember to thoroughly rinse surfaces after use, ideally within one hour.

WAY LIME
Lime Scale Remover

Recommended use:
- Cleans and maintains without film build-up
- Creates a slip-resistant surface
- Deep interim cleaning

Packing: Carton 2 x 5 L

Key Features
Way Lime is a Fast acting acidic formula with corrosion inhibitor that effectively removes stubborn calcium and lime deposits while remaining gentle on surfaces, it is the perfect solution for full surface descaling of floors, walls, and washroom surfaces.

INSTITUTIONAL & LAUNDRY

FLOOR CARE CHEMICALS

WAY STRIP
Floor Stripper

Recommended use:

- Powerful alkaline
- Strips all types of emulsion floor polish
- Excellent wetting and emulsification properties
- Removes heavy polish build up

Packing: Carton 2 x 5 L

Key Features

Way Strip is a quick and efficient solution for removing floor polish emulsions from alkali-resistant hard floors, including PVC, vinyl, stone, etc. Way Strip effectively dissolves heavy build-ups and tackles tough soil removal with powerful results. It can be used as a mop stripper or machine stripper

WAY POLISH
High Gloss Acrylic Floor Polish

Recommended use:

- High Gloss Acrylic Floor Polish
- Excellent resistance to scuffs, marks & dirt
- Superior traffic resistance
- Easy to repair

Packing: Carton 2 x 5 L

Key Features

Way Polish gives a high gloss finish offering floors a quality and professional appearance. It is diamond-like polish film enhances the natural beauty of floors whilst simultaneously giving long lasting protection. Way Polish applies easily with even spread and no streaking creating a crystal perfect finish. It's 16% solids formula gives superior resistance to daily wear.

POWDER & WET COATING

Intercare Powder & Wet Coating division, spread out over 40,000 sq. ft., holds a Qualicoat certificate for surface treatment of Aluminium Alloy awarded by QMEA (Quali Middle East Association) and has the capacity to meet the market's demand. The machines in use for coatings have been sourced from reputed European manufacturers and are compliant with British and ASTM standards.

In the wet coating works, the facility is capable of wet coating, mild steel, and wooden surfaces of any size and style, including decorative coating and anti-corrosion wet coating.

SPECIALITIES:

• HIGH-PERFORMANCE POWDER COATINGS – applied as a dry powder through an electro-static process on any metallic surface (most particularly aluminum) then cured with heat. Warranty range from 10 to 20 years.

• HIGH-PERFORMANCE LIQUID COATINGS – for painting high-end niche products using polyvinyl di-fluoride (PVDF) with a warranty of 25 years. Latest Paint Technologies are coming into play, and Intercare maintains a constant update on upgrading its facilities as well as is conscious of the requirements of the market.

PROCESS OF POLYESTER POWDER COATING

a) Powder: Intercare use architectural polyester powders supplied by Jotun, Akzonobel, Axalta and National who are an ISO 9000 supplier of powders to the protective and decorative markets.

b)The importance of Pretreatment: Intercare Coatings follow Qualicoat & ISO standards for coating on Aluminium, Mild Steel and Galvanized Steel substrates.
Experience has shown that for modern powders that gives coating thickness of 50, 50 - 90 microns, the pre-treatment of the substrate is of foremost importance.
Accordingly, intercare has included conversion coatings in the pre treatment process which are Chrome free coating for Aluminium and Iron Phosphate for Ferrous and Galvanized steel products.
In all there are 9 stages to Intercare's pretreatment for Powder Coating.
The chemical treatments improve the corrosion resistance of the substrate and because of the non-crystalline structure of these conversion coatings, the mechanical adhesion is enhanced to a great extend.
It is also extremely important that the rinse water used between the various chemical treatments are based on deionized water so that all surfaces for powder coatings are free from cations and anions which affect the deposition of the electrostatically charged powders.
Intercare have installed their own R.O unit with additional stages for de-ionizing the final water to a conductivity of less than 10 microsiemens.

c) Coating: Following pre-treatment the materials to be coated are transferred to a conveyor and transported to the spray area.

The powder is applied electrostatically by means of automatic spray guns operating from reciprocators. Intercare also have a facility for manual spraying where required.
The final process stage is curing, which is carried out in a 19-meter long oven, through which the sprayed material passes by conveyor (the oven temperatures are carefully maintained by our quality control personnel to ensure correct cure).
Following curing the coated materials are checked for quality and packed ready for despatch to the client.

d) Quality assurance: With its own fully equipped laboratory, Intercare carefully monitor not only the chemical strengths of their pretreatment baths and conductivity of the inter stage rinses, but also carry out the important mechanical tests on the finally coated products including:-

QUALITY TESTS FOR POWDER COATING

Gloss Test (DIN 65730) (By instrument): To compare samples with manufacturers recommended gloss level. This test also gives an indication of the correct curing of the powder coating.

Adhesion (DIN 535/ISO 240-2Hz): Cutting the coating down to the substrate on a grid system using 6 blades at 2mm centres.
The resulting cross hatch is then subject to severe adhesion stress to confirm the coating strength is at the correct level.

Impact Resistance: Falling weight from specified height with inspection of the deformed area to ensure coating has neither cracked or been detached from the substrate, on either face.

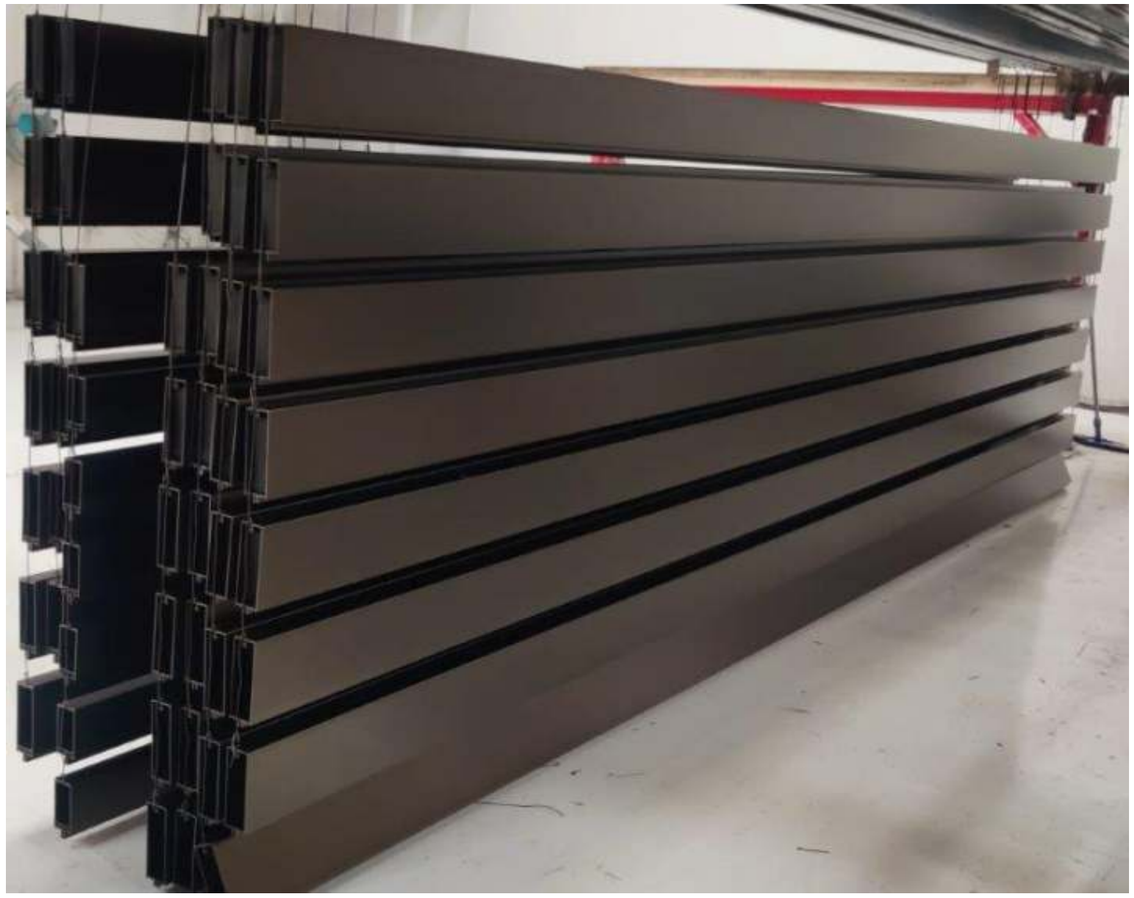

Bend Test: Bending a Test piece around a cylindrical mandrel from 30mm dia to 3mm dia and checking the coating for cracks on both faces of the bend.

Coating Thickness Test: During the inspection process of the finished coated product, a series of coating thickness test are made to ensure the Standard Thickness of 50 microns to 90 microns has been maintained

MEK Test: 50 Rubs with cotton wool soaked in Methyl Ethyl Ketone to test correct curing of the powder coating.

Oven Test: Regular Tests are made on the ovens used for Powder curing to check the heating zones of the oven and the temperature gradient, the curing time for the powder is according to the manufacturer's recommendations.

This continual monitoring of the Powder Coating processes ensures that our customers receive high quality coatings which conform to the standards required for the extreme and harsh conditions of sunlight and humidity found in the Arabian Gulf Area.

WET COATING

TECHNICAL SPECIFICATION

Composition: Pigment consisting of Titanium oxide and calcium carbonate Binder consisting of epoxy and polyamide resins. Volatile matters consists of Glycol and Esters.

Process: The process involves the following stages:

a) Substrate pre-treatment of light sanding.

b) Cleaning and degreasing with thinners or perchlorethylene.

c) Pre coating spraying with a light high build undercoat the above process is equivalent to chromating/phosphating 60/80 micron DFT.

d) Further light sanding and smoothing of surface areas.

e) Applying top coat electrostatically by our No.2 process as mentioned above:

f) Curing under normal conditions within controlled environment to achieve recommended hardness and toughness of the coat.

STEEL & FENCING

From a simple chainlink fabric fence - such as surrounds of a Tennis Court, to the most sophisticated electronic security systems installation with fiber optic interface, this Intercare Group subsidiary does them all - utilising its own in-house resources.

It can supply high level Raising Barriers, Hydraulic Bollards, Road Blockers, Tyre Killers right the way through to an integrated Car Park System together with any custom - designed shaded parking facility.

Its Steel subsidiary has the facility of being not only the major manufacturing unit for the Security Fencing Division, but has the ability to produce any item in Steel - from a wrought-iron decorative furnishing to a custom-made Steel Structure Building.

Camel Race Tracks, a speciality of the Group, may be seen in five different locations in the UAE alone. Supply, Design, Manufacture, and Install: The Intercare team does it all.

Through 50 years of cultivated experience, our world-class manufacturing workforce and machinery has allowed us to serve a growing list of clients in various sectors. We provide our customers with technical and manufacturing expertise for long-term turnkey solutions, and extend our services to every stage of a project:

1. Design, 2. Shop Drawings, 3.Fabrication, 4. Treatment and Paint, 5. Erection, 6. Handing Over

We address requirements, exceeding expectations for performance, life cycle and safety, and always complying with international standards.

FABRICATION CAPABILITIES

1. Plasma cutting
2. Press brake forming
3. Shearing
4. Punching
5. Welding (MIG, TIG, stick weld, spot weld)

BUILDING MATERIALS

Intercare Building Materials division provides comprehensive Matting solutions including premium anti-fatigue and multi-purpose mats. The division spreads out over an area of 4500 sq. ft.

Apart from that, the division has the full professional capacity to provide Custom-Made mats and Installation support as the client demands.

FLOOR MATTING SOLUTIONS:

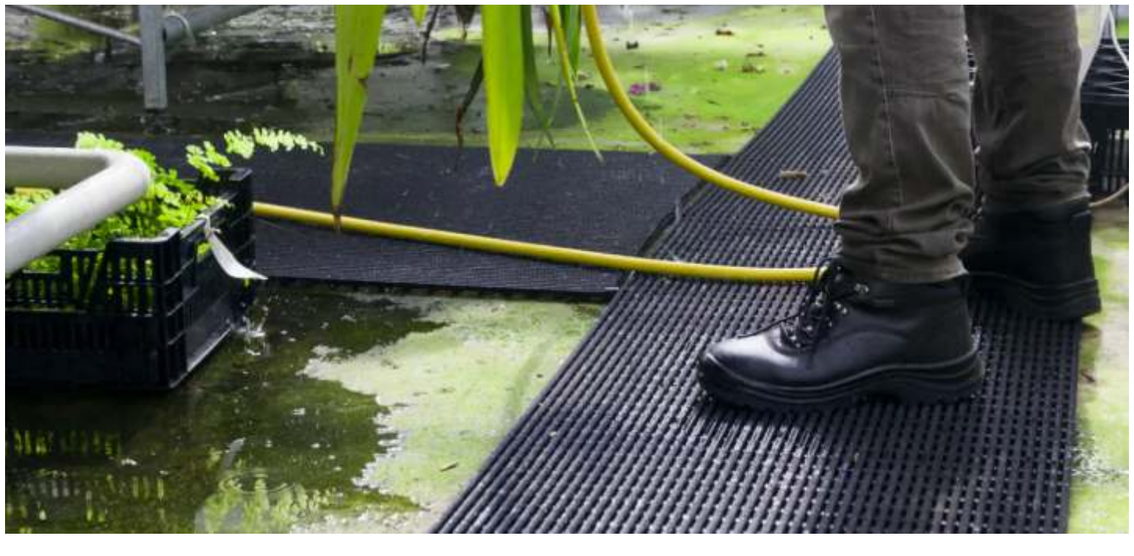

- ANTI-FATIGUE MAT
- BAREFOOT AND WETSIDE MAT
- ENTRANCE MAT
- MULTIPURPOSE MAT

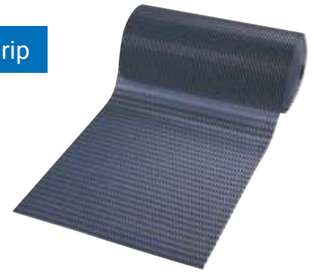

SLIP RESISTANT MATTING

The chart below will help you choose the right mat for the right reasons

PRODUCT	SLIP RESISTANCE	WEAR	COMFORT	DRAINAGE/ SPILLAGE	SITUATION	USAGE
GENERAL PURPOSE						
Vynagrip Vynagrip Plus						Hard wearing, heavy usage, long term.
Heronair						Cushions against breakages, good general purpose.
Floorline						Ideal for light usage and cushioning.
Plastex Chex						For coverage of large areas.
Plastex Lok						For coverage of large areas with likelihood of spillage.
Trackgrip						Hard wearing, large debris, long term.
WORKSHOP / TOOL ROOM						
Flexigrid						Larger components, debris, swarf and heavy spillage.
Firmagrip						Close spaced grid, smaller components and wheeled traffic.
FOOD PROCESSING / KITCHENS						
Herongripa						Large format grid ideal for food processing environments

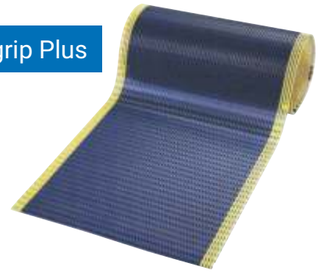

Vynagrip

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 - **ASTM 1677:** 1.0/0.9	Diamond cut pattern
Excellent drainage **DIN 51130:** V10	Two layer construction
Chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
Environmentally-friendly	Black Vynagrip: 100% recycled material
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in 10m rolls or ramped modules
Boost productivity	Proven and tested anti-fatigue properties
Fire resistant	Certified **EN 13501:** Cfl - S1

Vynagrip Plus

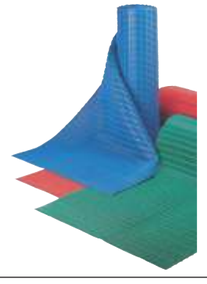

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 - **ASTM 1677:** 1.0/0.9	Diamond cut pattern
Excellent drainage **DIN 51130:** V10	Two layer construction
Marks routes and delineates areas	Yellow bands running length of mat
Chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in 10m rolls
Boost productivity	Proven and tested anti-fatigue properties
Fire resistant	Certified **EN 13501:** Cfl - S1

Heronair

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 - **ASTM 1677:** 0.6/0.6	Etched pattern
Excellent drainage **DIN 51130:** V10	Two layer construction
Fatigue-reducing and insulating	Hollow construction
Chemical, oil and acid resistant	Non-porous PVC
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in 10m rolls
Fire resistant	Certified **EN 13501:** Cfl - S1
Environmentally-friendly	Made from 100% recycled material

Floorline

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 & C **ASTM 1677:** 1.0/0.8	Etched pattern
Excellent drainage **DIN 51130:** V10	Open grid construction
Easy to clean	Non-porous PVC (impermeable to fluids)
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in 10m rolls
UV resistant	Can be used indoor or outdoor*
Fire resistant	Certified **EN 13501:** Cfl - S1
Enhanced branding or styling	5 standard colours

Herongripa

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 **ASTM 1677:** 0.8/0.7	Diamond cut pattern
Excellent drainage **DIN 51130:** V10	Two layer construction
Tough vinyl for food processing areas	Animal fat resistant DINP plasticised PVC
Chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
One piece covering	Supplied in 10m rolls
Continuous hygiene	Anti-fungal and anti-bacterial additives
Efficiently removes spillages	Large open grid format

BUILDING MATERIALS

Flexigrid

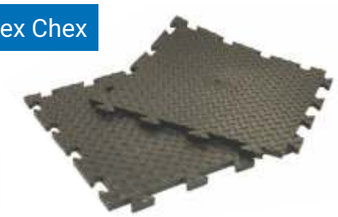

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 - **ASTM 1677:** 0.6/0.5	Diamond tread surface
Excellent drainage **DIN 51130:** V10	Two layer construction
Chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in 10m rolls
Boost productivity	Proven anti-fatigue properties
Environmentally friendly	Made from 100% recycled material
Fire resistant	Certified **EN 13501:** Cfl - S1

Firmagrip

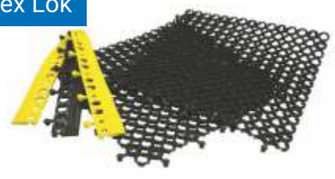

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11	Diamond cut pattern
Excellent drainage **DIN 51130:** V10	Two layer construction
Ideal for small wheeled traffic	Close mesh construction
Chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in 10m rolls
Fire resistant	Certified **EN 13501:** Cfl - S1
Enhanced branding or styling	3 standard colours

Plastex Chex

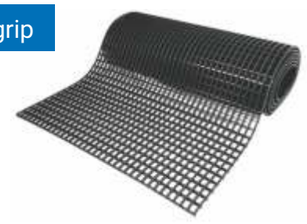

BENEFITS	FEATURES
Slip resistant and hard wearing	Checker plate surface
Insulating and chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
Quick to install	Interlocking jigsaw tiles
Environmentally-friendly	Made from 100% recycled material
REACH compliant	Made with certified recycled material
Finished areas	PVC ramped edging

Plastex Lok

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R12	Pimpled surface
Excellent drainage **DIN 51130:** V10	Raised construction
Chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
Quick to install	Interlocking tiles
Environmentally-friendly	Made from 100% recycled material
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Finished areas	PVC ramped edging

Trackgrip

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 **ASTM 1677:** 0.9/0.7	Diamond cut pattern
Excellent drainage	Two layer construction and extra wide spacing
Chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
Easy to clean with a high pressure hose	Made from flexible PVC
Quick to install	Supplied in 10m rolls
Fire resistant	Certified **EN 13501:** Cfl - S1

ANTI-FATIGUE MATTING

The chart below will help you choose the right mat for the right reasons

PRODUCT	SLIP RESISTANCE	WEAR	BOUNCE/FATIGUE REDUCTION	DRAINAGE/ SPILLAGE	SITUATION	USAGE
GENERAL PURPOSE - Suitable for most dry applications						
Tuff Spun				Dry only		The best budget anti-fatigue matting available with yellow edging for safety.
Tuff Spun Wear				Dry only		Added wear layer offers extra comfort and improved durability.
Tuff Spun Deck				Dry only		Checker plate foam for added traction and puncture resistance.
Zed Land				Dry only		The ultimate high bounce, long lasting general purpose anti-fatigue mat.
HEAVY DUTY - Strengthened with extra thermally bonded surface matting						
Zed Tred						Copes with light spillage and debris.
Zed Chex						Industry standard pattern - available in black.
FOR WHEN THE HEAT IS ON						
Sparksafe				Dry only		Industrial work and welding stations, repels sparks and hot metal shards.
GENERAL PURPOSE - Suitable for most wet applications						
Heronair						Cushions against breakages, good general purpose.

Tuff Spun

BENEFITS	FEATURES
Certified wear resistance **ASTM 4060:** <1 gram loss	Minimal wear standing foam which will not deaden
Good slip resistance	Ribbed surface
Reduces standing fatigue and underfoot noise and protects items accidentally dropped from damage	Closed cell PVC foam construction
Quick to install	Supplied in 18m rolls or standard modules

Tuff Spun Wear

BENEFITS	FEATURES
Certified wear resistance **ASTM 4060:** <0.3 gram loss	Heavy duty top layer
Good slip resistance	Embossed pebble surface
Extra cushion comfort	Increased foam thickness
Quick to install	Supplied in 18m rolls or standard modules

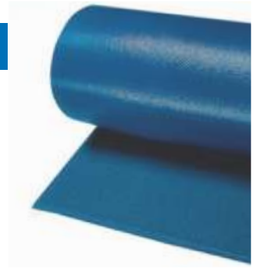

BUILDING MATERIALS

Tuff Spun Deck

BENEFITS	FEATURES
Certified wear resistance **ASTM 4060:** <0.2 gram loss	Heavy duty deck-top surface
Good slip resistance	Embossed surface
Extra cushion comfort	14mm (9/16") thickness
Quick to install	Supplied in 18m rolls or standard modules

Zed Land

BENEFITS	FEATURES
Certified wear resistance **ASTM 4060:** ≤1.5%**	Minimal wear standing foam which will not deaden
Good slip resistance	Embossed pebble surface
Excellent standing fatigue reducing properties will boost productivity	Patented vinyl foam construction with superior resilience
Easy to cut to shape and quick to install	Supplied in 18m rolls or standard modules
Provides underfoot comfort in static sensitive environments	Electrostatic dissipative (ESD) properties Certified **ASTM D257:** 10^9

Zed Tred

BENEFITS	FEATURES
High wear resistance and resilience	Minimal wear standing foam which will not deaden
Extra slip resistance	Ribbed vinyl surface
Excellent standing fatigue reducing properties will boost productivity	Patented vinyl foam construction with superior resilience
Easty to cut to shape and quick to install	Supplied in 10m rolls or standard modules

Zed Chex

BENEFITS	FEATURES
High wear resistance and resilience	Minimal wear standing foam which will not deaden
Extra slip resistance	Checker plate vinyl surface
Excellent standing fatigue reducing properties will boost productivity	Patented vinyl foam construction with superior resilience
Easty to cut to shape and quick to install	Supplied in 18m rolls or standard modules

Sparksafe

BENEFITS	FEATURES
High wear resistance and resilience	Rubber top with rubber foam backing
Repels sparks and hot metal shards	Heat resistant rubber wear layer
Excellent anti-fatigue relief	Soft foam base
Quick to install	Supplied in standard modules

Heronair

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 - **ASTM 1677:** 0.6/0.6	Etched pattern
Excellent drainage **DIN 51130:** V10	Two layer construction
Fatigue-reducing and insulating	Hollow construction
Chemical, oil and acid resistant	Non-porous PVC
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in 10m rolls
Fire resistant	Certified **EN 13501:** Cfl - S1
Environmentally-friendly	Made from 100% recycled material

BAREFOOT & WETSIDE MATTING

Our barefoot & wetside matting products are specifically designed to:

- **Reduce slip and fall accidents**
- **Protect from fungal and bacterial contamination**
- **Provide underfoot comfort**

The chart below will help you choose the right mat for the right reasons

PRODUCT	SLIP RESISTANCE	WEAR	HYGIENE	DRAINAGE	COMFORT	USAGE
WET AREA SAFETY MATTING						
Heronrib p. 36						For extensive barefoot traffic. Use inside or out.
Floorline p. 38						For drier walkways. Use inside or out.
Floorline Water Polo p. 39						For water polo field marking and slip resistance.
Herontile p. 37						For large wet areas. Use inside only.
WET AREA IMPACT MATTING						
PillogriD p. 40						Phenomenal drainage with a soft landing.

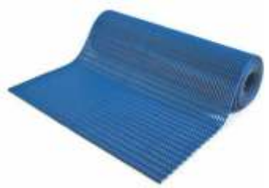

BUILDING MATERIALS

Heronrib

BENEFITS	FEATURES
Certified slip resistance **DIN 51097:** C **ASTM 1677:** 0.9/0.7	Embossed surface
4 way drainage	Two layer construction and channelled underbars
Excellent hygiene	Anti-microbial and anti-fungal additives
Easy to cut and clean, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in 10m rolls
UV resistant	Can be used indoor or outdoor*
Fire resistant	Certified **EN 13501:** Cfl - S1
Enhanced branding or styling	6 standard colours

Herontile

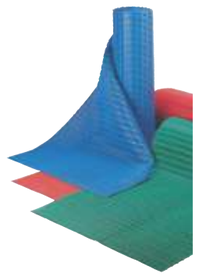

BENEFITS	FEATURES
Certified slip resistance **DIN 51097:** C	Embossed surface
Excellent drainage	15mm (5/8") height
Hygienic	Anti-microbial and anti-fungal additives
Barefoot comfort	Soft Ethylene Vinyl Acetate (EVA) composition
Easy and quick coverage of large floor areas	Simple, click together joining mechanism
Finished areas	PVC ramped edging
Can be rolled up for easy underneath cleaning & maintenance	Flexible construction
Enhanced branding or styling	4 standard colors

Floorline

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 **DIN 51097:** C **ASTM 1677:** 1.0/0.8	Etched surface
Excellent drainage **DIN 51130:** V10	Open grid construction
Excellent hygiene	Anti-microbial & anti-fungal additives
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in 10m rolls
UV resistant	Can be used indoor or outdoor*
Fire resistant	Certified **EN 13501:** Cfl - S1
Adapt to your branding or styling	5 standard colours

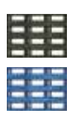

Floorline Water Polo

Floorline Water Polo is a Tri-Coloured mat, making up the three colours of red, yellow and green.

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 **DIN 51097:** C **ASTM 1677:** 1.0/0.8	Etched surface
Excellent drainage **DIN 51130:** V10	Open grid construction
Excellent hygiene	Anti-microbial & anti-fungal additives
Quick to lay down for field set-up	Made from flexible PVC, supplied in one piece roll
Increase visibility of field marking lines	Tri-coloured one piece roll: Green (10m), yellow (3m) and red (2m)
Easy to store and carry	38cm diameter when rolled
UV resistant	Can be used indoor or outdoor*
Fire resistant	Certified **EN 13501:** Cfl - S1

PillogriD

BENEFITS	FEATURES
Soft landing	Hollow tube construction
High volume drainage	Large open grid format
Highly resistant	"D" profile for maximum weld strength
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in rolls or fabricated panels
UV resistant	Can be used indoor or outdoor
Hard wearing	All welded construction
Hygienic	All flexible PVC construction

BUILDING MATERIALS

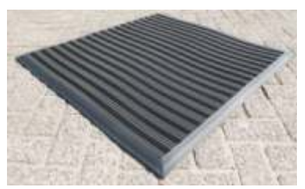

FRONTRUNNER ENTRANCE

Depending on the surface you are looking to cover and amount of traffic, we recommend choosing a primary matting for effective removal of dirt and a secondary matting for removal of any residual dirt and drying of moisture.

PRODUCT	FRONT/ SIDE ELEVATION	SLIP RESISTANCE	SCRAPER	MOISTURE REMOVAL	LOCATION	USAGE
VINYL OPEN GRID CONSTRUCTION - PRIMARY MATTING						
Frontrunner Entry Frontrunner Entry Low Profile p. 46	 SIDE FRONT				B	High traffic internal areas.
Frontrunner XT p. 47	 SIDE FRONT				A (also ideal for walkways, balconies and decking)	High traffic internal or external areas.
VINYL OPEN GRID CONSTRUCTION WITH BRUSH INSERTS - PRIMARY MATTING						
Frontrunner Brush p. 48	 SIDE FRONT				A	Maximum dirt removal in internal/external areas.
Frontrunner Brush Wide p. 49	 SIDE FRONT				A	Larger debris removal in external areas.
VINYL OPEN GRID CONSTRUCTION WITH ABSORBENT INSERTS - SECONDARY MATTING						
Frontrunner Plus Frontrunner Plus Low Profile p. 50	 SIDE FRONT				B C	Maximum moisture removal in high traffic internal areas.
VINYL OPEN RIBBED CONSTRUCTION WITH A SOLID BACK - SECONDARY MATTING						
Frontrunner SB p. 54	 SIDE FRONT				B	Surface mounted in high traffic internal areas.
Frontrunner SB+ p. 55	 SIDE FRONT				B C	Surface mounted moisture removal in high traffic internal areas.

BUILDING MATERIALS

Frontunner Entry

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 **ASTM 1677:** 0.6/0.6	Diamond cut pattern
Excellent drainage **DIN 51130:** V10	Two layer open grid construction
Fire resistant	**EN 13501 - 1 :** 2007- Bfl - S1 **ASTM E648:** Class 1
Easy to maintain	Can be rolled up or lifted for cleaning
Seamless, quick and easy installations	Supplied in 10m (33') rolls - modules also available
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Heel and wheel-proof	Close mesh grid matting
Enhanced branding on styling	5 standard grid colours

Frontunner Brush

BENEFITS	FEATURES
High soil removal and slip resistance	Diamond cut pattern
Excellent drainage	Two layer open grid construction
Excellent scraping	Nylon brush inserts
Fire resistant	**EN 13501 - 1 :** 2007- Cfl - S2
Easy to maintain	Can be rolled up or lifted for cleaning
Seamless, quick and easy installations	Supplied in 10m (33') rolls - modules also available
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC

Frontunner Brush Wide

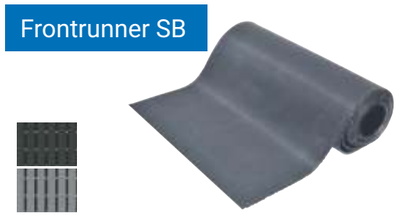

BENEFITS	FEATURES
Ideal for removing salt, shingle or gravel	Extra wide grid
High soil removal and slip resistance	Diamond cut pattern
Excellent drainage	Two layer open grid construction
Excellent scraping	Nylon brush inserts
Fire resistant	**EN 13501 - 1 :** 2007- Cfl - S1
Easy to maintain	Can be rolled up or lifted for cleaning
Seamless, quick and easy installations	Supplied in 10m (33') rolls - modules also available
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC

Frontunner Plus

BENEFITS	FEATURES
High soil removal & slip resistance	Diamond cut pattern
Excellent drainage	Two layer open grid construction
Maximum moisture removal	Absorbent inserts
Fire resistant	Certified **EN 13501 - 1 :** 2007- Cfl - S2 **ASTM E648 :** Class 1
Easy to maintain	Can be rolled up or lifted for cleaning
Seamless, quick and easy installations	Supplied in 10m (33') rolls - modules also available
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Heel and wheel-proof	Close mesh grid matting
Reduces the need of a deeper matwell	Available in a low profile 10.5mm (13/32") option
Enhanced branding or styling	Up to 50 different colour combinations available

Frontrunner SB

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 **ASTM C1028:** 0.6/0.6	Etched pattern
Fire resistant	Certified **EN 13501 - 1 :** 2007- Cfl - S1 **ASTM E648:** Class 2
Surface mounted	6.5mm (17/64") grid height
Can be adhered to sub-floor in high traffic areas	Solid backing
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Seamless, quick and easy installations	Supplied in 10m (33') and 20m (66') rolls
Light to handle	One layer hollow construction
Heel and wheel-proof	Close mesh grid matting
Rolling resistance	**ASTM F2753:** No apparent damage to the vinyl portion of the system after 1,000 cycles at 500lbs

Frontrunner SB+

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R11 **ASTM 1677:** 0.6/0.6	Etched pattern
Maximum moisture removal	Absorbent inserts with monofilament scrapers
Fire resistant	**EN 13501 - 1 :** 2007- Cfl - S1 **ASTM E648:** Class 2
Surface mounted	6.5mm (1/4") grid height
Can be adhered to sub-floor in high traffic areas	Solid backing
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Seamless, quick and easy installations	Supplied in 10m (33') and 20m (66') rolls or modules
Light to handle	One layer hollow construction
Heel and wheel-proof	Close mesh grid matting
Rolling resistance	**ASTM F2753:** 0.080in lost of thickness after 1,000 cycles at 500lbs

MULTI- PURPOSE

How to choose your multi-purpose mat

Colour & Design

Often in larger areas colour is an important factor. After all floors usually make up the largest area of single colour in any interior design. Plastex has an extensive range of colours and patterns to choose from.

Surface pattern is important for several reasons...

Dot Pattern

As a rule of thumb the higher the dot the greater the grip, the smaller the dot the easier it is to clean and for small wheels to cross. Also design perspective comes into play – big dots make rooms look smaller, small dots make rooms look bigger. We produce mats with three sizes from big to small - coin, button and dot.

DOT PATTERN

PRODUCT	PAGE	DOT SIZE	COLOURS	THICKNESS	SPILLAGE	USAGE
Flexi Dot	6		2			Contemporary small dot pattern.
Flexi Dot Extra	6		2			Contemporary small dot pattern for heavier traffic areas.
Eco Dot	6		2			Contemporary small dot eco-friendly product.
Eco Dot Extra	6		2			Ecological pattern for heavier traffic areas.
Flexi Coin	7		1			Large stud vinyl alternative.
Eco Coin	7		2			Large stud vinyl eco-friendly product
Flexi Button	8		2			Heavy duty deep stud flooring.

Ridge Pattern

Striped surfaces provide a bit of extra comfort and can deal better with spillage. We have grooved stripe products for extra grip.

RIDGE PATTERN

PRODUCT	PAGE	PATTERN SIZE	COLOURS	THICKNESS	SPILLAGE	USAGE
Flexi Tred	9		4			Heavy duty ribbed matting suitable for use where electrical safety is required.
Flexi Line	10		3			Fine ribbed matting designed for areas alongside or on top of benches.
Flexi Ridge	11		2			Hard wearing ribbed matting with high component and noise protection.

Open Grid Pattern

For areas with the likelihood of heavy spillage our Plastex Grid and Plastex Lok products provide comfort and support for both chemical and non-chemical environments.

GRID PATTERN

PRODUCT	PAGE	GRID	COLOURS	THICKNESS	SPILLAGE	USAGE
Plastex Grid	14	Open	5	25mm *(1")*		Heavy duty rigid grid tiling for where large volumes of liquid require efficient dispersal.
Plastex Grid	14	Closed	2	25mm *(1")*		Heavy duty rigid grid solid surface tiling for coverage of large areas.
Plastex Lok	13	Open	1	16mm *(5/8")*		Heavy duty open grid 100% recycled PVC tiles.
Plastex Chex	12	Closed	1	14mm *(4/9")*		Heavy duty solid surface 100% recycled PVC tiles.

Durability

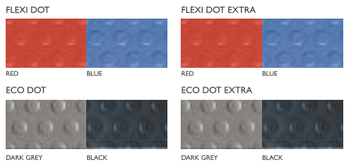

The thicker the mat the longer it wears - so take the amount of traffic into account. Of course the thicker mats also provide more protection for floors, benches and components.

Environment

All the above products are 100% recyclable and made from 100% DINP (REACH compliant) PVC, including recycled versions ("Eco" products, Plastex Lok and Plastex Chex).

BUILDING MATERIALS

Flexi Dot

BENEFITS	FEATURES
Good slip resistance	Dot pattern surface
Chemical, oil and acid resistant	Vinyl sheets in roll format
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in convenient roll formats
Environmentally-friendly	'Eco' version manufactured from reprocessed factory waste
Fire resistant	**EN 13501 - 1 :** 2007- Bfl - S1

Flexi Coin

BENEFITS	FEATURES
Good slip resistance	Large stud design
Chemical, oil and acid resistant	Vinyl sheets in roll format
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in convenient roll formats
Environmentally-friendly	'Eco' version manufactured from reprocessed factory waste
Fire resistant	**EN 13501 - 1 :** 2007- Bfl - S1

Flexi Button

BENEFITS	FEATURES
Good slip resistance and hardwearing	Deep stud design
Chemical, oil and acid resistant	Vinyl sheets in roll format
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in convenient roll formats
Fire resistant	**EN 13501 - 1 :** 2007- Bfl - S1

Flexi Tred

BENEFITS	FEATURES
Good slip and wear resistance	Textured broad rib surface
Insulates from electric shock	Breakdown voltage of 27kV
Chemical, oil and acid resistant	Vinyl sheets in roll format
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in convenient roll formats
Fire resistant	**EN 13501 - 1 :** 2007- Cfl - S1

Flexi Line

BENEFITS	FEATURES
Good slip resistance	Fine ribbed surface
Chemical, oil and acid resistant	Vinyl sheets in roll format
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in convenient roll formats
Fire resistant	**EN 13501 - 1 :** 2007- Bfl - S1

Flexi Ridge

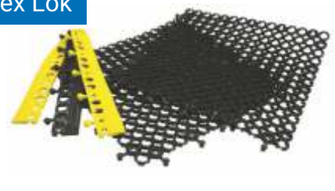

BENEFITS	FEATURES
Good slip and wear resistance	Ribbed surface
Chemical, oil and acid resistant	Vinyl sheets in roll format
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Quick to install	Supplied in convenient roll formats
Fire resistant	**EN 13501 - 1 :** 2007- Bfl - S1

Plastex Chex

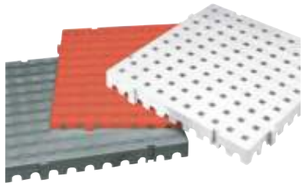

BENEFITS	FEATURES
Slip resistant and hard wearing	Checker plate surface
Insulating and chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
Quick to install	Interlocking jigsaw tiles
Environmentally-friendly	Made from 100% recycled material
REACH compliant	Made with certified recycled material
Finished areas	PVC ramped edging

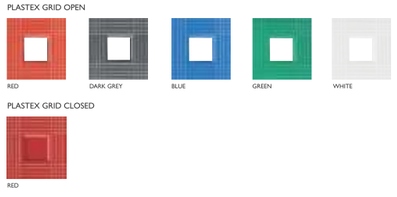

Plastex Lok

BENEFITS	FEATURES
Certified slip resistance **DIN 51130:** R12	Pimpled surface
Excellent drainage **DIN 51130:** V10	Raised construction
Chemical, oil and acid resistant	Non-porous PVC (impermeable to fluids)
Quick to install	Interlocking tiles
Environmentally-friendly	Made from 100% recycled material
Easy to cut on site, contours to uneven surfaces	Made from flexible PVC
Finished areas	PVC ramped edging

Floorline Water Polo

BENEFITS	FEATURES
Open grid or solid grid design	Open grid for removal of large volumes of liquid
Good slip resistance	Textured surface
Resistant to detergents, industrial chemicals and acids	Made from rigid polyethylene
25mm (1") high surface	Withstands weights of up to 50 T/m²
Effective coverage of large areas	Secure 'lock fit' connection

BUILDING MATERIALS

SCHEYBAL
MATTEN NACH MASS

ALPHA-MAT G/5

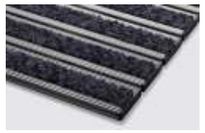

Specific customer benefit

- Special joints used instead of cables for active scraping action
- Easy to roll up
- Patented caps provide scratch protection
- Design for exacting architectural demands
- Ideal for renovating old buildings

Material::

Aluminium carrier profiles with black, ribbed special rubber. Width of individual elements 45 mm. Attractive and effective.

ALPHA-MAT TEX/5

Specific customer benefit:

- **Special joints instead of cables for active scraping action**
- **Easy to roll up**
- **Patented side caps provide scratch protection**
- **Textile: high absorption of sand and moisture. Easy cleaning. Long service life.**
- **Smoke and fire certification Cfl-s1 (tested according to EN13.501-1)**

Material:

Aluminium carrier profiles with high-quality textile inlay.
Textile inlay: you may choose from many qualities and colours according to enclosed colour card. Additional new colours on offer.

FORTUS FDA Cfl-s1

Specific customer benefit

- 2-Fibre-dimension increases cleaning effect
- highest dust and moisture absorption
- Tailoring

Material:

Ideal and high-performance for absorbing dust and residual moisture in indoor areas of heavily frequented buildings and premises

MEGA-MAT TEX/5

Specific customer benefit

- Special joints instead of cables for active scraping action
- Easy to roll up
- Patented side caps provide scratch protection
- Clear logos for additional advertising effect

Material::

Aluminium carrier profiles with high-quality polyamide textile surfaces. The open structure of the textile surface actively absorbs more dust and moisture.

TEXWELL SUPER V6

Specific customer benefit

- Fire classification: Cfl-s1
- Precisely made to measure – any size, any shape
- Open structure – very high dirt and moisture absorption
- Dirt-hiding design for intensive use

AQUA STAR R12

Specific customer benefit

High-quality fine stripper for extreme moisture absorption within just a few steps.

- Fire class Bfl-s1
- extremely high moisture absorption
- ideal for small areas
- elegant textile fine stripe
- Exact custom-made - any size, any shape

BUILDING MATERIALS

INTERIOR

Offering ingenious solutions to customize living space, this division covering interior architecture specializes in Contract Furnishing and offers meticulously curated service to each client.

The joinery and furnishing factory is housed in an area of 7200 sq. ft. with an additional storage space of 2500 sq. ft. This arm of Intercare is equipped to provide purpose-designed and customized furniture for the Hospitality industry.

For each project delivery, we maintain global standards of quality and strictly follow the ISO guidelines throughout the process from conception through delivering products and allied services.

NOTABLE PROJECTS :
Some of the major projects this division had executed are the Emirates Tower Hotel, Crowne Plaza Hotel Chain, Atlantis, The Palm, and Holiday Inn.

INTERIORS

INTERCARE INTERIORS:

EXPERTLY DESIGNED OFFICE FIT-OUTS & PRIVATE VILLAS

At Intercare Interiors, we specialize in designing people-centric environments that enrich the customer experience, promote wellness, strengthen brand and culture, and incorporate modern technology and new ways of working.

We rely on simplicity and modern design to bring your vision to life in both offices and private villas. Our team anticipates the future to provide you with a space that is both functional and customized to your needs.

DUSIT PRINCESS, DUBAI

(CURRENTLY IT'S KNOWN AS LEELA HOTEL)

Entire soft furnishing has been taken care by Intercare Interiors

Dusit Princess City Centre offers 120 superbly equipped rooms made for First-class accommodation with a fascinating allure of contemporary Thai décor. Relax in casual elegance and comfort ambience. Hotel's meeting rooms on the mezzanine floor is ideal for small to medium- size meetings and seminars. Both meeting rooms have windows along one side to let in natural light.

For further relaxation, a Fitness Centre set in a thoroughly relaxing atmosphere is available for reflexology therapy treatments.

Diverse arrays of dining options are also readily available. These includes the JoyBean Café for light snacks and refreshments, an alfresco Shisha Zone for those seeking to experience the centuries old tradition of the Shisha pipe with flavoured tobacco.

EMIRATES TOWERS HOTEL, DUBAI

Entire soft furnishing has been taken care by Intercare Interiors

Jumeirah Emirates Towers is one of the most stunning architectural highlights on the Dubai skyline. The spectacular views from the hotel itself are complemented by the stellar accommodation and business services you'll find within.

Intercare has always had a special interest in the cultural diffusion of the works of the architects and designers of its collections, promoting cultural initiatives and creating exceptional collaborations.

CROWNE PLAZA, DUBAI

Entire soft furnishing has been taken care by Intercare Interiors

Productivity and comfort come together at Crowne Plaza® Dubai, located in the heart of Dubai's business district- Sheikh Zayed Road, which is ideal for trade and cultural events.

We work with only the finest materials, from quality fabrics to artisan-crafted woods, leathers and metals.

In everything we do, we strive for originality, for luxury, and above all for quality. Intercare Interiors is composed by a team of experts who will help to do soft furnishing of our clients dreams.

FAIRMONT HOTEL, DUBAI

Entire soft furnishing has been taken care by Intercare Interiors

Fairmont Hotel is an iconic hotel located in the center of this cosmopolitan city.

Our quality is more than aesthetics. We stand for craftsmanship, uncompromising attention to detail, and exceptional materials. Our reputation allows us to handpick the best experts from around the globe.

ICL TISSUE MANUFACTURING LLC

ICL Tissue Manufacturing LLC, a division of Intercare, to cater to the tissue paper requirements of the Washroom Hygiene division in the middle east.

Spread over 3500 Sq ft of factory area with the most modern paper-converting technology and a 4000 Sq ft of storage space, we are committed to ensuring standardized manufacturing practices, which assure low lint and high absorbency paper products. The factory holds ISO 9001:2015 certificates for Quality Management systems and has the capacity to manufacture 265,000 cartons per annum. With a careful and conscious selection of mother reels from responsible manufacturers in UAE, we are in alignment with UAE's vision to encourage in- country products and to boost the local economy.

ICL TISSUE MANUFACTURING LLC

We offer a selection of high-quality paper products that include:

Interfold hand towels

1 Ply | 23x22.5cm

Packets 200x20 | GSM 26

Interfold hand towels

2 Ply | 23x22.5cm

Packets 200x20 | GSM 34

Folded toilet paper

2 Ply | 10x23cm

Packets 250x30 | GSM 33

Auto-cut hand towels

1 Ply | 20cm

1 x 6 rolls | GSM 40

FC & WC WORKSHOP

Intercare is constantly striving to ensure that our products and machines deliver the best and uninterrupted service to our customers. The division was incepted in 2004, equipped with all necessary tools, accessories and skilled manpower. It is spread out over a 5000 sq. ft. area with a dedicated parking bay for large machines / sweepers).

The full fledged workshop can undertake the service requirements of numerous prominent brands of Floor Care and Waste Care machines such as IPC, Truvox, Powr-flite, Sprintus, Polivac, Klindex, Eco Removal Systems, Aplina, Lindhaus, Matrix, Dulevo.

Uncompromising standards, reliable service, and experienced and well trained staff make our after sales workshop trustworthy for clients as well as customers.

Intercare Workshop : Workforce

Technical Manager, Service Coordinator and a team of 14 technicians are responsible for prompt and efficient after sales service. All the technical staff are trained at the Dulevo training center in Italy and for floor care machines , the Service Managers from our respective suppliers visit our site or they conduct online training sessions to equip our team with first-hand information and training.

Our technical and operations staff at the workshop have a competitive advantage in delivering the ideal solutions and flawless service in less time due to their work expertise and solution-based approach.

Intercare Workshop : Health & Safety

The company has an uncompromising approach to the health and safety of the staff, guests, and the community around the workshop.

All the staff strictly follow safety and personal hygiene protocol measures as per the ISO standards. The company is credentialed with Fire and Safety certification provided by the Sharjah Civil Defence department.

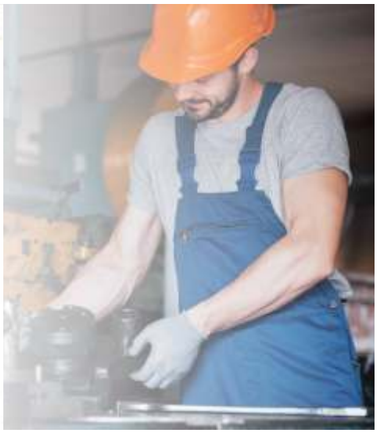

Apart from that, to provide emergency first aid service at the premises, multiple eyewash stations, and shower stations are installed and first aid kits are available at multiple points.

Intercare Workshop : Quality Certificates

The After Sales Service workshop and the technicians are certified by Dulevo and IPC for their machines. Moreover, the workshop follows **ISO 9001 2015** standard for operations and customer management.
