Polaris Plastic Bin with door, pedal, pushing-grip, cover and wheels is ideal for the waste collection in workshops, industries, warehouses, etc. ...

It's essential mostly in those environments where the direct contact with the container and the inside content have to be avoided due to hygienic reasons.

- › Completely made of recyclable polypropylene in compliance with the HACCP rules.
- › The front door allows the emptying of the rubbish in a very simple way and without the minimum effort for the operator. 250° opening of the door, studied to reduce the overall dimensions.
- › Its rounded shape is easier to clean it in compliance with HACCP rules.
- › Its plastic cover with pedal opening and hermetic sealing avoids the coming out of unpleasant smells and its 90° opening helps the operator while emptying the container.
- › The pedal is internal the container structure so to reduce the overall dimensions and the rod to lift the cover is completely made of plastic.
- › Equipped with an ergonomic handle and wheels Ø 125 mm to handle the container better and easier.
- › Equipped with a bag-stretcher fixed to the cover, two plastic hooks to fix the bag, one cage for deodorant or disinfectant pills.
