

Rapido Microfiber Mop Head 41 cm

Art no	FCFIJH00427/61/62/63
Material	Microfiber
Uses	for wet mopping and disinfection in medium dirty floors
Size (cm)	41 (length) x 10 (width)
Country of origin	Italy

Rapido Microfiber Mop head is for frames with velcro system, mainly used for wet mopping and disinfection in medium dirty floors. Suggested for cleaning inside floors (hotels, houses, offices, hospitals, etc).

- › The microfiber absorbs more due to its yarn capillarity and it covers a wider cleaning area. It cleans much quicker and with the minimum effort, if compared to traditional mops.
- › Microfiber traps and absorbs any finest particle of dirt leaving a clean surface, without smearing and scratches.
- › It guarantees excellent cleaning results thanks to its very very thin fibers which can penetrate all micro pores of surfaces.
- › It removes up to 99,98% of bacteria and fungi.
- › Thanks to a particular twisting process, this twisted yarn keeps its shape even after many washing cycles with low linting.
- › Velcro support: it is an innovative unshrinkable material which is non-linting and does not fade keeping its characteristics unaltered.
- › Available in different colors for different cleaning system.
- › No latex.

Intercare Floorcare guarantees the quality of the product . Its application recommendations are based on the test and practical experience .

we accept no responsibility for damage caused through improper use of the product .
