

Plastic Mop Wringer with Adjustable Roll

Art no	FCFIJH00092
Material	Recyclable polypropylene
Uses	To rinse and wring the flat mops directly through the wringer into the bucket
Size (cm)	65 (height) x 40 (width) x 40 (depth)
Country of Origin	Italy

The Plastic Mop Wringer with adjustable roll has no bottom in order to rinse and wring the flat mops directly through the wringer into the bucket, reducing working time and avoiding unpleasant dripping on the floor. It is equipped with a painted metal handle with return spring making its use easier.

- › Fits all trolleys.
- › Product made of recyclable polypropylene, strong, light and shock-proof.
- › Adjustable roll: it is possible to regulate the roll position very easily in order to adapt the roll to any wet mopping system employing 40 cm flat mops and to different wringing requirements.
- › The central position is for a standard wringing performance, the position “-” is for a lighter wringing performance and the position “+” is for a stronger wringing performance.
- › Equipped with handle holder, useful to support the handle in the front of the wringer.
- › Mostly used with microfiber flat mop heads (short looped).
