

# Microfiber, Cotton and Polyester Mop Head 40 cm

Art no	FCFIJH00097
Material	Microfiber, Cotton and Polyester
Uses	for mopping of interior floors with a medium-high level of dirt
Length	40 cm
Country of origin	Italy

The Microfiber, Cotton and Polyester Mop Head is mainly used with speedy frames and aluminium handle for the wet mopping of interior floors with a medium-high level of dirt, in hotels, houses, offices, hospitals and the like. Ideal for cleaning corners and walls.

#### Why Microfiber, Cotton and Polyester Mop Head ?

- › Innovative wet mopping system thanks to the combination of three different textile yarns: microfibre, cotton and polyester. The structure of these three yarns assures maximum results in cleaning.
- › Cotton improves the mop absorbancy and increases the cleaning surface.
- › Thanks to its structure, microfibre multiplies the amount of yarns, which come in contact with the floor. Consequently the capacity to pick up dirt is much more higher than normal systems.
- › Polyester yarn makes the cloths slide on the floor.
- › Latex-free product.
- › Life cycle: over 250 washing cycles.

Intercare Floorcare guarantees the quality of the product . Its application recommendations are based on the test and practical experience .

we accept no responsibility for damage caused through improper use of the product .
